Data Sources and Calculations

In/Out Migration Data

The In/Out Migration data in this report comes from the Internal Revenue Service, specifically the Statistics of Income Division's County-to-County Migration Data.

Educational Attainment Data

EMSI's educational attainment numbers are based on Census 1990, Census 2000, the Current Population Survey, and EMSI's demographic data. By combining these sources, EMSI interpolates for missing years and projects data at the county level. Educational attainment data cover only the population aged 25 years or more and indicate the highest level achieved.
