

# Tourism Destination Area Nomination Workbook

New York's North Country Region

## Why is tourism important to the North Country?

Tourism offers the most viable opportunity to diversity and ignite the North Country economy by capitalizing on existing demand to attract a wide variety of private investment that will transform communities. Tourism is already a \$1 billion industry in the North Country and with its low upfront investment cost and quicker return on investment than many other industries, it is well-positioned to drive a new North Country economy as well as complement other strategic clusters of economic activity. Year-round tourism promotes a more sustainable, stable economy and more jobs; it's the most likely growth industry for this region and will help recruit other types of investment.

The region has a history of hospitality and several successful tourism hubs in place and exceptional four-season outdoor recreational opportunities are poised to leverage private investment in lodging, restaurant, attraction and other types of tourism related venues. Recognizing the transformative potential that tourism has in the North Country, the Regional Economic Development Council is advancing the following strategies:

*Put tools in place to attract private investment in tourism which will drive demand to revitalize and diversify communities and create a climate that will allow entrepreneurs to flourish.*

*Develop tourism infrastructure to transform the Region by driving community development and leveraging private investment in tourism destination area communities and corridors.*

The key to these strategies is that they recognize and focus attention on the need to attract and foster development in attractions, facilities and infrastructure conducive to attracting the 21<sup>st</sup> century traveling public. This is critical to sustaining, spreading and maximizing the North Country's tourism sector and revitalizing communities that have committed to tourism as a major component of their economy and quality of life.

An important element of advancing these tourism strategies is the definition, designation and advancement of “Tourism Destination Areas.” A TDA is a community (or group of communities) that have the critical mass of attractions, amenities, tourism support services, accommodations and infrastructure that enable them to sustain their economy and quality of life in the tourism economic sector. These are centers of activity and enterprise along the Byways and Blueways of the North County in a broadly defined “community” that demonstrates a commitment to making tourism a key economic driver by having engaged in tourism development planning and having initiated local projects whose primary goal is tourism demand generation. The designation as a TDA is an economic development tool to help provide communities with access to programs, financing and opportunities to advance their tourism-related economy.

A TDA has:

- A planning document (such as a destination master plan) that clearly shows success or viable intent to use tourism as an economic development tool;
- A leadership commitment in writing stating that the area is committed to the development of tourism, because it takes many resources within a community to create a successful destination;
- Infrastructure capacity or the capacity for expansion to meet future needs;
- A marketing mechanism (Chamber of Commerce, Visitor’s Center);
- Demonstrated regional leadership by being a “voice” in the region or forging regional connections to foster economic development.

These are some of the key attributes that reviewers will be looking for when evaluating TDA Nomination forms. A TDA is not only a community that currently exhibits all the characteristics mentioned above; communities that demonstrate clear progress and/or potential in key areas will also be considered for TDA designation.

Designated TDAs will have access to financing programs and will receive Priority Project status for CFAs they submit for consideration by the North Country Regional Economic Development Council. Additionally, Tourism Investment Funds will be targeted at private sector investments in designated TDAs.

## What is the Tourism Destination Area Self-Guided Nomination Form? And why should you use it?

Around the world tourism destinations are constantly working to distinguish themselves in the marketplace. The emphasis of Tourism Destination Areas (TDA) is to enable your destination and community to operate at the highest level it can achieve and to have access to the tools necessary to achieve your goals. This Form focuses on providing a clear appraisal of your current tourism situation and as part of a process provides the forum to generate discussion for tourism potential in your destination.

The Nomination Form is organized into sections to accompany critical elements identified for a TDA. The Form is designed to ask thought-provoking questions which will allow your destination to realistically assess its current situation. In some cases, the answer may not be a simple yes or no, or the required information may not be readily available. The questions are guides, designed to broaden the way you creatively think about your destination and forcing you to examine everything your destination has to offer, as well as what it lacks. Do not be discouraged if you cannot answer all the questions. Be realistic, gauge where your destination stands. A Glossary of Terms is included to clarify key words.

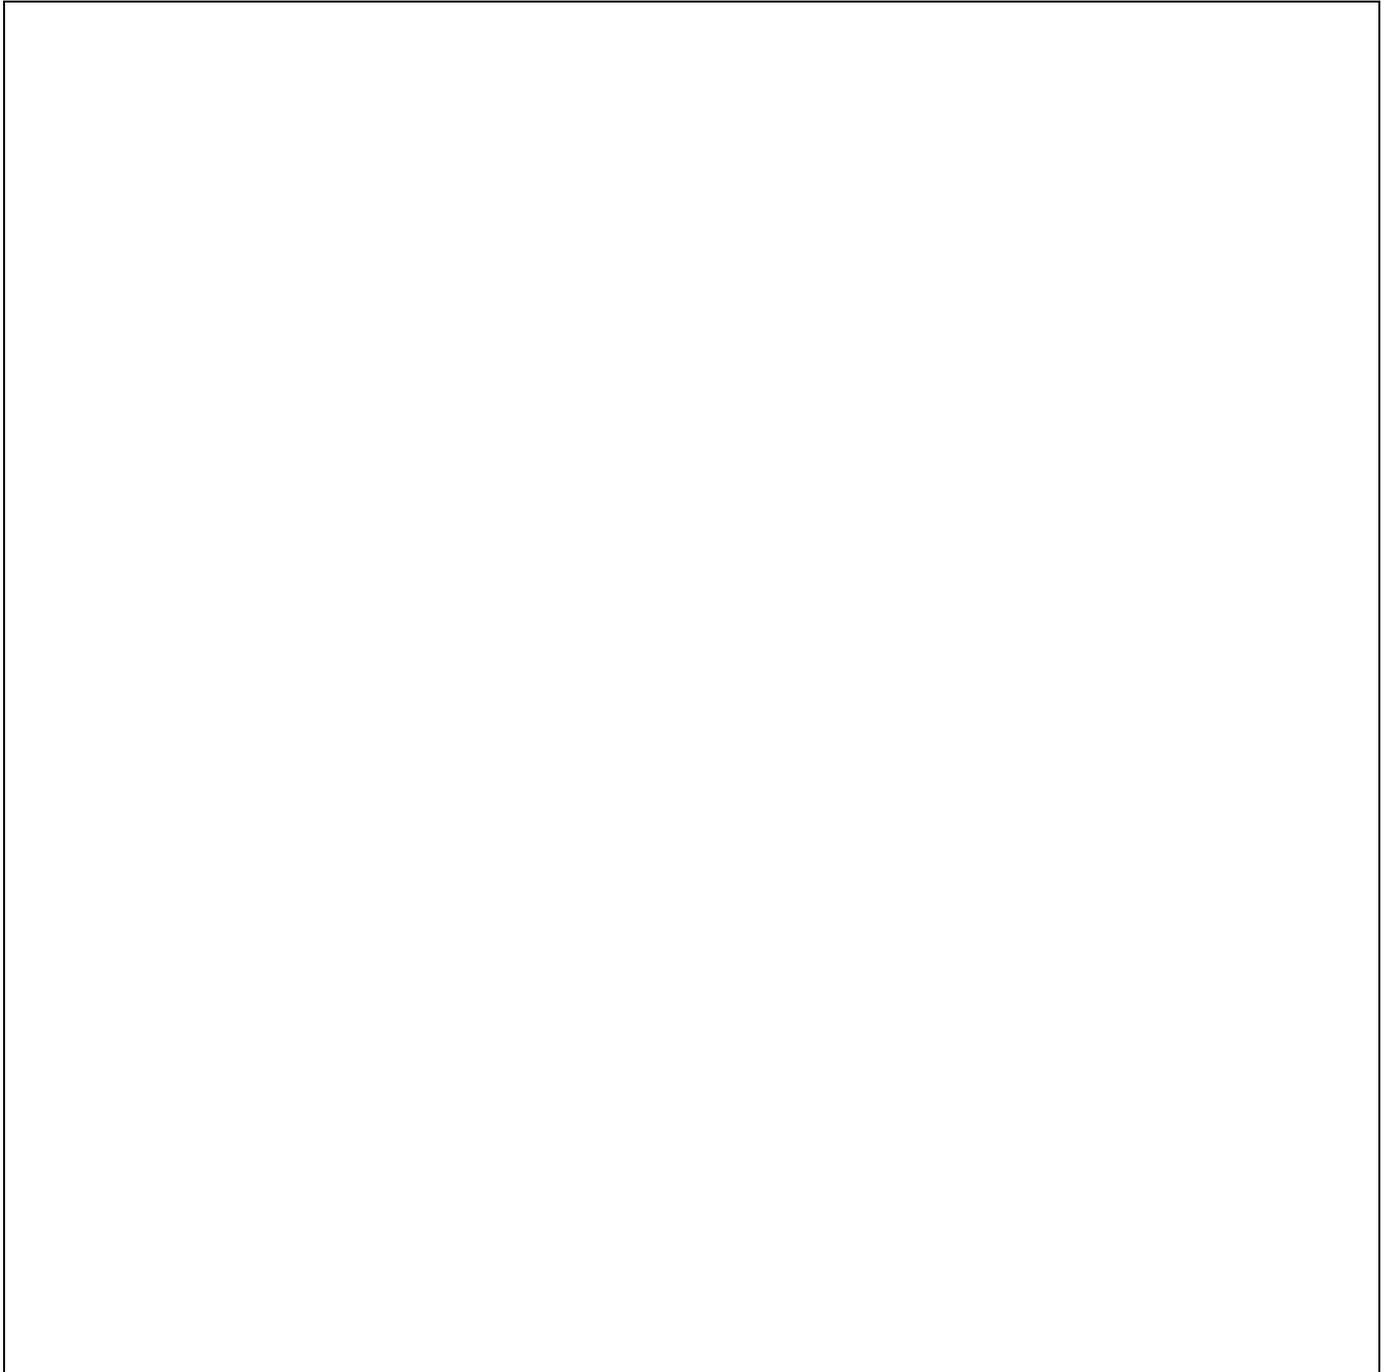

We recognize that these are challenging questions which we hope will generate much discussion and mobilize your community to take future action. Consider the answers or in some cases blanks, to be measurements to which you can compare future tourism activity. While this process requires a commitment of time and energy, your community's investment will be rewarded through the insights and directions gained.

The Nomination Forms will be reviewed and evaluated by a third-party committee of tourism experts. This process will also help the Regional Council identify clusters of projects or types of projects that are needed in multiple areas of the region so programmatic activity and planning can be directed to those critical areas.

**What are the goals your community would like to achieve by undertaking the Tourism Destination Area (TDA) process? (e.g. to increase tourism revenues, improve quality of life, etc.)**

Core attractions can differ from season to season. (there may be golf and skiing at a four seasons resort destination.) A core attraction can also be a grouping of assets, all relating to a specific theme (e.g., forts and battlefields), or an experience enabled by a grouping (e.g., a resort experience supported by fishing, canoeing, dining and accommodations) See: Supporting Attraction)

DMOs engage in marketing that targets leisure tourists, as well as conventions and other groups. Increasingly, DMOs are being called upon to assist in destination development as well as promotion, leading some to adopt a new term Destination Marketing and Management Organization (DMMO).

This analysis should lead to identifying priority markets and opportunities/needs for growing and/or strengthening tourism in the area. Typically, strengths and weaknesses are internal attributes of the organization/community. Opportunities and threats are external, and tend to be much more difficult to control.
