

2016 Regional Council Process & Consolidated Funding Applications

Background:

The Regional Economic Development Councils (REDCs) are a community driven, regional approach to economic development in New York State. Each Council consists of over 20 business, academic and government leaders from throughout the Region.

In 2011, each of the ten Regional Councils were tasked with developing a five-year strategic plan that included a comprehensive vision for economic development for that region, regional strategies to achieve that vision, and specific priority projects that are significant, regionally supported and capable of stimulating economic investment. Empire State Development Corporation developed a competitive process in which Regional Council Strategic Plans containing recommendations for funding made by each Regional Council were reviewed by a Strategic Plan Review Committee consisting of two State Agency Commissioners and three economic development experts. Members of the 2011 Review Team included: Dall W. Forsythe, Senior Fellow at the Wagner School of Public Service at New York University and former Vice President for Finance and Operations at The Atlantic Philanthropies; Walter D. Broadnax, Professor of Public Administration at The Maxwell School of Syracuse University; Bruce J. Katz, Vice President at the Brookings Institution and founding Director of the Brookings Metropolitan Policy Program; Joan McDonald, Commissioner of the New York State Department of Transportation; and Cesar Perales, New York State Secretary of State. On December 8, 2011, the Governor and Legislative Leaders announced the winners of the first round of competition.

In 2012, the Councils went a step further and produced Strategic Implementation Agendas that built upon the progress from the first round and further developed and refined their Regional Five Year Strategic Plans by undertaking four primary activities: Establishing a framework to advance the Regional Strategic Plan; Implementing the strategies laid out in the Strategic Plan; Creating a project pipeline; and providing a progress report documenting the success the Council has had in implementing its Strategic Plan.

In 2013, all ten of the Regional Councils competed against each other to be designated as a "Top Performer". The 2013 Council competition was designed with a similar framework as 2012 but added several new activities for the council to focus on that would continue to help develop and advance the original strategic plans. Regional Councils were asked to develop an Opportunity Agenda, identify Innovation Hot Spots, and advance regional Cleaner, Greener Community Sustainability Plans.

In 2014, the regional councils developed strategies for several new initiatives including a Global NY Plan to identify import/export and foreign direct investment (FDI) opportunities. Councils also created a Veteran's Work Group to address the unemployment of returning veterans in New York. The REDC's were asked to identify projects as part of NY Rising to assist in the rebuilding of areas devastated by natural disasters. The Councils also provided an update on their Opportunity Agenda, workforce development challenges, and their project pipeline.

In 2015, the Regional Economic Cluster Program was launched to ensure continued focus on the importance of industry cluster growth in statewide economic development efforts through partnerships between business, academia, and venture capital. All the regional councils focused on initiatives that will drive implementation of their regional strategic plans, and to continue support for various State initiatives. Regional Council priorities include: development of strategies and projects that focus on the growth of regional economic clusters; advancement of plans and projects that strengthen the Global NY agenda; implementing additional strategies in their strategic plan; maintaining a pipeline of projects; training the workforce for today and tomorrow; and measuring the performance and progress of the strategic plan and CFA projects.

In 2016, all REDC's participated in the \$100 million Downtown Revitalization Initiative (DRI) which will invest \$10 million in one community in each region to develop a vision, articulate a plan, and identify projects and other implementation steps. Each Regional Council solicited interest in the program from communities in the region and considered how those communities met the criteria put forth from the State. The Council nominated one Downtown in each Region to receive the award.

These actions were designed to encourage and accelerate implementation, performance, and collaboration within the regions. Priority projects that aligned with each region's plan were chosen by the Councils from the applications submitted to the Consolidated Funding Application portal. These projects were published in the regions' Progress Report, which are publically available online at www.regionalcouncils.ny.gov. Projects were scored by both the state agencies and the Regional Councils. The agencies scored their projects based on a technical evaluation in adherence with existing funding program guidelines and awarded a project up to 80%. The remaining 20% is awarded by the Regional Councils, and were based off the following endorsement standards:

Statewide Endorsement Standards

Regional Council members will determine the degree to which the application implements the regional strategic plan and assign the corresponding number of points as a score.

IMPLEMENTATION OF THE PLAN	DEGREE	POINTS
The proposal is identified as a priority project by the Regional Council.	Priority	20
The proposal is identified in the plan and has regional benefits.	Very Strong	15
The proposal advances the plan and has local benefits.	Strong	10
The proposal is consistent with the plan and has project level benefits.	Moderate	5
The proposal has limited relationship to the plan	Weak	0

Since the inception of the REDCs in 2011, members have been required to sign a Code of Conduct, Conflict of Interest documents, and have undergone training from legal counsel. Both documents are updated annually and new members are required to complete these documents upon appointment. Members with conflicts of interest must recuse themselves from reviewing or discussing identified projects.

2016 Competition:

To encourage the implementation of the Regional Economic Development Councils' strategic plans and to continue to motivate investment opportunities and job creation, the Regional Councils competed in 2016 for up to \$175 million in capital funds and \$70 million in Excelsior Tax Credits for projects identified by the Regional Councils in their regions.

As part of this year's competition, all the regional councils focused on initiatives that will drive implementation of their regional strategic plans, and to continue support for various State initiatives. Regional Council priorities include: supporting the Downtown Revitalization Plan and beginning to identify projects to implement it; implementing strategies through the project pipeline; training the workforce for today and tomorrow; and measuring the performance and progress of the strategic plan and CFA projects.

By incentivizing implementation of the strategic plans, Regional Councils, businesses, educational institutions, local governments, not-for-profit groups and other stakeholders are further motivated to work together to accomplish the regional vision. While project funding was awarded in all ten Regional Councils through the 2016 CFA, the competition placed an emphasis on Regional Council performance and action to implement strategies.

The competition was focused on the following:

- 1) Implementation of regional strategic economic development plans;*
- 2) Performance in encouraging economic growth through job creation and investment;*
- 3) Support for the Downtown Revitalization Initiative.*

In 2016, the Regional Councils competed against each other to be designated as a "Top Performer".

The 2016 Strategic Implementation Assessment Team (SIAT) was led by Secretary of State Rosanna Rosado and included Office of General Services Commissioner RoAnn Destito, Department of Transportation Commissioner Matthew Driscoll, Environmental Facilities Corporation President and CEO Sabrina Ty, Department of Labor Commissioner Roberta Reardon, and Parks, Recreation and Historic Preservation Commissioner Rose Harvey. Due to the unprecedented commitment of state funds to economic development in the 2016 State Budget, the SIAT was expanded to include an additional member that was appointed by the Legislature, Hon. Donna Lupardo, State Assembly District 123. The SIAT reviewed each region's Progress Report based on established criteria. Members of all REDC's traveled to Albany and presented a summary of their 2016 activities and priorities to the SIAT which

included PowerPoint presentations, videos, and regional exhibit booths. The SIAT was also given time to ask questions of the REDC's about their progress reports and regional priority projects.

The SIAT provided an assessment of each plan and made recommendations to Howard Zemsky, President & CEO, Empire State Development Corporation of the five reports that most closely aligned with the criteria outlined in the guidebook. President Zemsky accepted the recommendations of the Committee and, pursuant to his statutory powers as head of the Urban Development Corporation, awarded five regions with the Top Performer up to \$40 million in funding consisting of \$25 million in capital grants and up to \$15 million in Excelsior tax credits for priority projects identified in their Strategic Plans. The balance of the incentives was awarded to projects identified by the Councils as in alignment with their strategies and priorities.

In addition, project sponsors applied for over \$510 million in economic development resources available from twelve state agencies through the Consolidated Funding Application (CFA). The CFA allows businesses and other entities to apply for multiple agency funding sources through a single, web-based application. Awards for CFA projects were made based on the endorsement of the local Regional Council and the technical program review of the agencies providing resources, subject to interagency review team analysis and agency discretion.

The 2016 REDC initiative was launched on April 29 and the CFA opened for applications on May 2 and closed on July 29. All details about CFA resources were made available online via the 2016 CFA Resources Available Document, the New York State Register and the Grants Gateway. When the portal closed on July 29, agencies immediately began marking project eligibility. All eligible projects were then made available to the Regional Councils for their scoring process and the agencies for their technical evaluation. On October 3, the REDCs submitted their final 2016 progress reports to the State. After the SIAT presentations concluded in November, the Inter-agency team met to review the projects and make final funding decisions.

The interagency team reviewed projects based on relevant factors including Regional Councils Implementation Agendas and designation of priority projects, project alignment with regional goals and objectives, funding availability and regional need. Priority projects are those specifically enumerated in the Regional Council Reports, receiving a score of 20 from the Regional Council, and identified as significant, regionally supported and capable of stimulating economic investment.

The interagency team once again consisted of professional staff from relevant agencies and authorities' with detailed knowledge of their respective CFA program funding. This group conducted an analytical assessment that provided the basis for project funding recommendations made by individual agencies for final approval by respective agency or authority head. As provided in the budget, the Regional Council Grant funds were awarded by ESD in its discretion.

This process resulted in funding of projects that aligned with a long term, regionally generated implementation agendas and are capable of stimulating economic growth and investment.

On Thursday, December 8, 2016, the Governor announced that 950 projects totaling \$716.9 million had been awarded through Round Six of the Regional Economic Development Council initiative. Top Performer awards were given to the Mid-Hudson, Capital Region, Mohawk Valley, Finger Lakes, and New York City regions in adherence to the competition guidelines detailed above.

MEMORANDUM

December 8, 2016

To: Howard Zemsky, President and CEO of the Empire State Development Corporation

From: Rossana Rosado, Secretary of State
RoAnn Destito, Commissioner, Office of General Services
Matthew Driscoll, Commissioner, Department of Transportation
Rose Harvey, Commissioner, Office of Parks, Recreation & Historic Preservation
Roberta Reardon, Commissioner, Department of Labor
Sabrina Ty, President and CEO of the Environmental Facilities Corporation
Assemblywoman Donna Lupardo, of the 123rd District

Subject: Review of Progress for the 2016 Regional Economic Development Council Initiative

We are honored to serve as the Strategic Implementation Assessment Team (SIAT) for Governor Cuomo's Regional Economic Development Council (REDC). In the past six years, the REDC initiative has made serious progress in job creation and the growth of new industries across New York State. This year, the REDC initiative has been enhanced by the \$100 million Downtown Revitalization Initiative.

In 2011, each Regional Council was charged with developing a five-year Strategic Economic Development Plan that emphasized their region's unique assets and provided strategies to harness local resources, both human and capital, to stimulate regional economic development, and create jobs statewide. The Strategic Economic Development Plans continue today with annual updates to address emerging state and regional challenges and opportunities. Each region has a unique set of strategies to achieve greater economic prosperity. These include strategies to focus on developing certain industry clusters; global marketing and export strategies; help people in distressed Opportunity Areas to overcome barriers to entry into the workforce; promote veterans' participation in the workforce; and regional sustainable growth strategies. In many of the regions, strategies have been further refined in response to the Upstate Revitalization Initiative and Western NY's Buffalo Billion Plan.

The REDC program redesigned the relationship between state government, businesses, and academia to stimulate regional economic development and create jobs. With this shift, the State asked the REDCs to use their unique understanding of their regional economies to implement important State priorities.

In 2016, in addition to updating their Strategic Economic Development Plans, the regions identified communities ripe for development into vibrant communities where tomorrow's workforce will want to live, work and raise families. The \$100 million Downtown Revitalization Initiative (DRI) is investing \$10 million in one community in each region to develop a vision, articulate a plan, and identify projects and other implementation steps. Each Regional Council solicited interest in the program from communities in the region; considered how interested communities met the DRI criteria and any other local criteria; nominated one downtown to receive a DRI award; and received certification by the state of the one downtown that the Regional Council deemed best positioned to take advantage of the DRI.

This November, the Regional Councils came to Albany to present their progress, talk about plans to implement their economic development strategies in 2016-2017, and to report on the status of the DRI plans. Their oral presentations complemented the regional progress reports submitted by the Regional Councils in October. We listened to those presentations and have the responsibility of assessing the progress of the ten Regional Councils.

2016 Annual REDC Competition

Our task was to evaluate all ten regions based on the competition and Regional Council priorities as described in the 2016 REDC Guidebook. We focused on the following areas:

- Support for the Downtown Revitalization Plan and identification of initial projects to implement it
- Implementation of strategies through the project pipeline
- Training of the workforce for today and tomorrow
- Continued advancement of state priorities and regional strategic economic development plans, and identification of projects that implement related strategies, including:
 - The regional economic cluster plan
 - The region's global marketing and export plan
 - The regional Opportunity Agenda
 - Regional hot spots and business incubators
 - SUNY, CUNY, and community college plans
 - Veterans' participation in the workforce
 - Local government engagement in the Regional Council process
- Measuring the performance and progress of the strategic plan and consolidated funding application (CFA) projects

Awards

All ten regions competed for up to \$175 million in capital funds and \$70 million in Excelsior Tax Credits for projects identified by the Regional Councils as priorities in their regions. In addition, each region was awarded \$10 million to implement projects identified through the Downtown Revitalization Initiative, and projects from all ten regions submitted through the CFA were eligible for over \$510 million in other state agency funds.

The Strategic Implementation Assessment Team has identified five regions that merit the designation as Top Performers and awards of up to \$25 million each in ESD Capital Grants. This was a difficult challenge, as the regions are taking a variety of approaches to very different challenges and opportunities, and are all making progress implementing their strategic plans. However, after careful consideration we selected as Top Performers the following regions: **Capital Region, Finger Lakes, Mid-Hudson, Mohawk Valley, and New York City.**

The **Capital Region Regional Economic Development Council (CREDC)** embraces the Capital 20.20 Plan it created last year. Key priorities integrated into the 2011 strategic plan include *Next Tech* - investments in innovative technology and advanced industries, such as health care, clean energy, advanced analytics, and cybersecurity; *Lift-Off* - focusing on the cluster of research and development and commercialization; *Gateway* - investments in port infrastructure, waterways, rail, and ground transport; *Talent* - a cradle-to-career approach to workforce development that connects job-seekers and employers with higher education institutions; and *Metro* - projects that address concentrated urban poverty in support of the Opportunity Agenda. Many ongoing projects support

more than one component of the CRREDC's plan, like the Park South Neighborhood revitalization in Albany, which is leveraging support from the City of Albany, Albany Medical Center, and neighborhood stakeholders to produce \$250 million in new investment, while addressing concentrated urban poverty. The CREDC also identified many projects to continue to grow its commercialization of research and development, and has been supporting construction at SUNY Albany of the Emerging Technology and Entrepreneurship Complex. Downtown revitalization projects were identified for the DRI community of Glens Falls, as well as Troy, Albany, and Schenectady. Glens Falls, the CREDC's DRI selection, imagines possible DRI projects ranging from mixed-use development, façade improvements, and pedestrian trails, to a Science, Technology, Engineering and Math (STEAM) kids' museum and indoor farmers market.

The Finger Lakes Regional Economic Development Council's (FLREDC) momentum is being fueled by a region united around a focused plan to grow jobs, increase regional wealth, drive private sector investment, and reduce poverty. FLREDC focused on three industry clusters: Optics, Photonics, and Imaging; Agriculture and Food Production; and Next Generation Manufacturing and Technology. A comprehensive partnership of private companies, local colleges and universities, federal sources, and state entities support the Optics, Photonics, and Imaging cluster. Apprentice programs at community colleges provide support services to at-risk students and apprenticeships in the OPI area for technicians. The FLREDC significantly refocused its economic development efforts on reducing regional poverty by requiring each proposed priority project to describe how it will address poverty. The City of Geneva was selected as the DRI community because its vision is strongly aligned with the FLREDC goals to grow jobs, increase private sector investment, and reduce poverty. The FLREDC supports the Rochester Monroe Anti-Poverty Initiative (RMAPI) dual generational action plan which is focused on adult mentoring; early childhood supports; and systems integration of social supports. Opportunities for employment are growing in the agricultural and food processing sector, with worker training, expanding food production and processing, growing downtown food and beverage clusters across the region, and waste to energy recycling.

The Mid-Hudson Regional Economic Development Council (MHREDC) continued to refine its economic development strategy to best leverage the region's unique assets (e.g., its proximity to New York City, highly educated workforce, and scenic beauty) and opportunities. Its LIVE, WORK, and PLAY strategies provide a clear road map for choosing projects to invest in and workforce initiatives to support, and industries in the LIVE and PLAY clusters showed growth in employment and the number of establishments. Stakeholders in the region are working together to identify means to address workforce development needs, including workers for which English is a second language and individuals targeted by the regional Opportunity Agenda program. Almost all of the proposed Priority Projects support workforce training. Commitment to downtown revitalization is evident in MHREDC funding recommendations, as half of the proposed Priority Projects are located in urban centers like Poughkeepsie, Kingston, New Rochelle, Yonkers, and Middletown. Chosen by the MHREDC as the DRI community, Middletown hopes to continue its success in adaptive reuse and expand academic partnerships. Many projects meet multiple objectives. For example, the proposed Poughkeepsie Landing Waterfront Redevelopment Project would help revitalize a distressed community identified as part of the Regional Opportunity Agenda, and provide public access and amenities along the Hudson River. Thanks to the intensive efforts to involve stakeholders and inform the public, the region had many consolidated funding applications for which to offer its support.

The **Mohawk Valley Regional Economic Development Council (MVREDC)** focuses heavily on creating vibrant, diverse, creative, innovative and safe communities. They believe that this may be the most important building block upon which to build a culture of innovation and opportunity. MVREDC is taking an ecosystem approach, investing in the people and the places that make the economy work and leveraging its core strengths in manufacturing, tourism, and agriculture. Nearly 40% of proposed Priority Projects and more than 55% of CFA applications are for downtown projects across the region. Oneonta, the DRI community, will invest in a Craft Food and Beverage Innovation District to enhance Oneonta's appeal to the next generation of employees and employers. Throughout the progress report, they discuss how doors are opened to refugees and hard to place workers for entry level advancement opportunities, as evidenced by the Mohawk Valley Resource Center for Refugees' partnership with food processors in the region. Four out of the top ten firms hiring refugees in the region are food processing and agribusiness supply chain companies, accounting for more than 500 new placements since 2009 and 90 in 2015 alone. The MVREDC industry cluster is Internet Technology (IT) and Cybersecurity. The region has been focusing on increasing the number of patents coming out of their research and development institutions. The Commercialization Academy at the Griffiss Institute is turning Air Force Research Laboratory (AFRL) technologies into commercial products and businesses, providing a continuous source of new businesses and products to support the economy.

The **New York City Regional Economic Development Council (NYCREDC)** strategic plan and project priorities are designed to help the state make investments and policy decisions that effectively address fiscal and economic challenges facing the city, such as increased competition for investment, persistent poverty, rising household costs, and reduced federal funding to address aging infrastructure and housing stock. NYCREDC has consistently prioritized projects that support their strategic plan strategies to improve quality of life, invest in the future, and foster innovation. Through the strength of the community's commitment to planning, Jamaica earned designation as the region's DRI community. This long-dormant community is addressing the needs of the local population through expanded educational, workforce development, employment and entrepreneurial opportunities. A shift in the regional economic cluster plan to Life Sciences will leverage investments in basic research and incubator facilities in a sector primed for growth. NYCREDC recognized the necessity to develop innovative long-term partnerships to accommodate the type of skills and work-based learning programs that are required to create most quality jobs. For example, the Classrooms to Career Project was successfully completed with collaboration from seven high schools; employers in IT, healthcare, engineering, energy utilities and advertising; and CUNY colleges that provide mentoring, internship and post program support to students.

Five regions should receive awards of up to \$10 million each in ESD Capital Grants to help attract and grow business in their regions: **Central New York, Long Island, North Country, Southern Tier, and Western New York.**

The **Central New York Regional Economic Development Council (CNYREDC)** added the three pillars of economic growth (Invest in Key Growth Drivers; Build an Inclusive Economy; and Develop Enablers of Prosperity) contained in its winning Upstate Revitalization Initiative plan to the strategic goals identified in 2011. A neighborhood within the City of Oswego was designated the DRI community in recognition of its many assets, such as a scenic waterfront location, compact and walkable downtown, rich cultural history, and strong anchor institutions. Many downtown revitalization projects are identified in other community centers, such as Cortland, Auburn, and Syracuse. Progress has been made on innovation corridor projects in downtown Syracuse, which includes raising capital and creating jobs at Clean Tech Center and expanding services at Tech Garden. The CNYREDC targeted industry cluster of Data to Decisions includes precision

medicine, thermal and electronic controls, cybersecurity and information assurance, and unmanned aerial systems which saw tangible progress in 2015-2016 through project U-SAFE and planning for NUSTAR and Unmanned Aircraft System Traffic Management (UTM). The ongoing Advanced Manufacturing Jobs and Innovation Accelerator Challenge (AMJIAC) cluster group provides a variety of networking, capacity building, and reporting activities to assist 64 firms employing 6,300 individuals in the D2D cluster. The strong contribution of agriculture to the regional economy was also addressed. Overlap with other regions in agribusiness proposals was recognized by the CNYREDC, which formed an interregional group to assure projects are mutually reinforcing.

The Long Island Regional Economic Development Council (LIREDC) continues support of the strategies identified in its strategic plan. It is maintaining its momentum in the biotechnology sector through ongoing projects like the Broad Hollow Bioscience Park and Ronkonkoma Hub, nine projects supported for priority project funding this year, as well as others being advanced through other funding sources. The LIREDC supported workforce development initiatives like eMINDSET at Stony Brook University, expected to boost enrollment in engineering and applied science by 700% and to help the region meet the expected demand for engineers in increasingly complex and entrepreneurial-minded endeavors. LIREDC developed five sector advisory groups (health care, manufacturing, information technology, agriculture, and retail/hospitality/tourism) to identify skills gaps and unmet labor needs; assemble a database of existing degree and training programs in the region; and then propose a program to address identified needs. Through its Opportunity Agenda, LIREDC continues to support Wyandanch Rising infrastructure improvements and programs that target hard-to-place workers. LIREDC recognizes the need for improved infrastructure as a foundational element for downtown revitalization, and its selection of Westbury as the DRI will allow the community to plan how to capitalize on improvements to the Long Island Rail Road. To support a new Foodie Long Island cluster, local agencies will partner to establish a proposed Nassau County Food Production Incubator to support fledgling new food producers.

The North Country Regional Economic Development Council (NCREDC) identified a diverse set of strategies to deliver a continuous series of "firecrackers" through the tailored targeting of key communities described in the progress report. Plattsburgh, selected as the region's DRI community, is showing strong continuing growth as heart of region's Transportation Equipment & Aerospace Cluster, including the current development of Norsk Titanium, major expansion of capabilities at Plattsburgh International Airport, and construction of a new Institute for Advanced Manufacturing. Watertown retained Fort Drum as NYS's largest single site employer, meeting housing needs and creating energy independence. In Clayton, ripple effects from investment in the 1000 Islands Harbor Hotel illustrate the payoff in investing in new accommodations for many distressed tourism communities across the region. The region's tourism fund used \$1.12M of state dollars to leverage \$8.67M of private investment. Tupper Lake boosted visitation and spending with a multi-phase investment in the Wild Center "Wild Walk" and new businesses downtown. Several proposed Priority Projects link tourism to downtown revitalization as a driver for private investment, such as the Downtown Campus Revitalization of Clarkson University in Potsdam. The NCREDC is working hard to be a successful member of the global community as well, attracting foreign direct investment in more than 20 companies, growing exports, enhancing global logistics, and forming new international partnership agreements.

The Southern Tier Regional Economic Development Council (STREDC) maintained its focus on picking priority projects that address one or more of the four regional strategies (Build the Greater Binghamton Innovation Ecosystem; Invest in the Advanced Manufacturing Industry; Transform the Food and Agriculture Industry; and Promote the Southern Tier's Innovative Culture). For example, Binghamton University purchased and installed the NECCES Battery Dry Room at the Center of Excellence to create a testing facility for new materials and devices related to the energy storage industry. The creation of GLASE (Greenhouse Lighting and Systems Engineering) allowed for more affordable LED crop lighting for New York growers, increasing

local crop production and the availability of year-round fresh vegetables. Downtown Elmira, selected as the region's DRI community, has strong links between its proposed downtown revitalization strategies and the STREDC emphasis on entrepreneurship, advanced manufacturing, and the innovation culture. STREDC supports several different programs/training options to appeal to various demographics, such as impoverished residents, veterans, people without formal education or English language skills, and people with sustained and severe vision loss. The STREDC also provides numerous examples of collaboration between employers and educational institutions to offer training for jobs skills of various levels and experience. There are signs of economic improvement in the region – increases in manufacturing wages; increasing numbers of 30-34 year olds migrating into the region; and growth in employment in food manufacturing.

The **Western NY Regional Economic Development Council (WNYREDC)** presents “A Strategy for Prosperity” that encompasses 10 strategies, including implementation of smart growth principles like downtown investment, neighborhood revitalization, brownfield redevelopment, and water resource protection. One smart growth project is accelerating the redevelopment of a long-vacant, major brownfield site, Bethlehem Steel. WNYREDC focuses on seven industry sectors, which helps drive investment decisions. The region experienced job growth in several sectors such as agriculture, bi-national logistics, professional services, and tourism. Its targeted cluster of Materials and Manufacturing has seen an increase in total wages, and total job count and firm count have decreased in the past few years. Buffalo has been a focus of investment, but other communities are benefiting from ESD Capital Funds and other state investments. For example, parkways are being rethought in Niagara Falls; riverfront access restored; and downtown areas revitalized. In addition, recent investments in adaptive reuse projects, complete streets, tourism, and the waterfront positioned Jamestown as the community most ready to benefit from DRI funding. Job training and engagement of hard-to-place workers is a regional priority (Prepare our Workforce), and includes efforts for unskilled workers, construction trades, and high tech/bio tech workers. As part of its Opportunity Agenda, the WNYREDC is taking steps to ensure that education, transportation and support services are growing so that economic prosperity is reaching all segments of the population.

Conclusion

In each of the regions, the Strategic Implementation Assessment Team was impressed by the continued dedication of the Regional Council members, work group volunteers, their selection of strategic and realistic projects, and staff of the Regional Empire State Development offices who serve the Regional Councils. We continue to believe that the REDC process is a recipe for success, bringing together the key ingredients of economic development, academic advancement of new ideas and products, and development of a workforce across all age groups and socioeconomic strata. While we may only recommend five regions as top performers, we believe all of the regions are winners.

We extend our thanks and our congratulations to all Region Council members for the outstanding work they are doing to strengthen New York's economy.

MID-HUDSON REDC

2016 Progress Report Assessment

Section I. Performance

Impact on job creation and retention

Strengths

- From 2011 – 2015, Priority Projects retained 3,768 jobs and created 619 jobs.
- From 2011 – 2015 all CFA projects have retained 6,559 jobs and created 2,028 jobs. In 2015, CFA projects retained 301 jobs and created 258 jobs.
- From 2014 – 2015, average annual employment increased 1.55%, while unemployment during that same time period stayed steady (0.60% increase).
- From 2014 – 2015, total annual wages increased 4.11% and average annual wages increased 4.31%.
- From 2014 – 2015, the Food and Beverage cluster had a 3.29% increase in average annual employment.
- After experiencing a 7.61% decrease in average annual employment from 2013-2014, the high tech manufacturing cluster saw a 0.56% increase following identification as part of the region's economic cluster.

Weaknesses

- From 2014-2015, the Distribution cluster, part of the WORK strategy, saw an 8.72% decrease in average annual employment.

Business growth and leverage of private sector investments

Strengths

- From 2014-2015, the industry clusters that represent the PLAY strategy yielded a 3.32% increase in average number of establishments, demonstrating through continued growth that efforts to position the region as a premier tourist location have been successful to date.
- The ratio of total project cost to total ESD Capital Fund awards for all MHREDC Priority Projects over the past five rounds is nearly 13:1 (excludes cancelled or declined projects).
- The ratio of total project cost to total CFA awards for all CFA projects over the past five rounds is 8.8:1. For 2015, the ratio was 17.78:1.
- The modernization and expansion of a historically significant packing, wholesale distribution and retail facility at Hepworth Farms Hudson Valley Grown Farm Hub (2014 Award) was completed.

Weaknesses

- None noted.

Section II. Progress

Implementation of strategies in the 5-year regional strategic economic development plan

Strengths

- There were significant strides with the PLAY strategy in the growth of the tourism and food and beverage industries, supported through a variety of Priority Projects.
- The Sing Sing Prison Museum (2014 Award) has completed initial planning and development for an educational and historical museum on the site of the existing correctional facility. The project is now ready for preparation of plans and specifications for museum and exhibit design.

Weaknesses

- None noted.

Execution of strategies in annual plan updates that address emerging state and regional challenges and opportunities

Strengths

- The region took advantage of opportunities in tourism and has multiple projects underway, such as the Walkway Over the Hudson Visitor Facility Improvements and advancement of Bellefield at Hyde Park.
- Multiple projects are underway in Food and Beverage Manufacturing, such as Black Dirt Distillery and Tourism Expansion Project; and the Food and Beverage Manufacturing and Agritourism Center.
- In 2015, the Orange County Industrial Development Agency took over a business accelerator and re-branded it as a region-wide and virtual Accelerator Without Walls (AWOW). AWOW is currently working with 34 small manufacturers in industries such as electronics, fashion, agriculture, food manufacturing, lighting manufacturing, and pharmaceuticals. In 2016, those 34 companies created 161 net new jobs.
- MHREDC reports that the eleven communities that make up the Regional Opportunity Agenda have been awarded funding for 84 projects from 2013-2015 to support community revitalization.

Weaknesses

- None noted.

Success in job training and engagement of hard-to-place workers

Strengths

- Stakeholders in the region are working together to identify the means to address workforce development needs.
- The Village of Brewster (Putnam County) and the City of Peekskill (Westchester County) have nearly completed workforce development programs for 82 individuals involving Entrepreneurship (offered in both English and Spanish) or English as a Second Language courses.
- The Hudson Valley Educational Consortium (HVEC), representing community colleges in the region, met with the MHREDC Workforce Development Task Force to discuss future collaborations.

Weaknesses

- No projects in furtherance of workforce development have been completed.

Advancement and completion of prior round Priority Projects

Strengths

- Vassar Brothers Medical Center (2015 Awardee) broke ground on construction of a patient pavilion in fall 2016 that will include a lobby, trauma center, emergency department, conference center, and café. MHREDC is recommending an additional \$18.4 million for phase two.
- From 2011-2015, there have been 74 Priority Projects, and 72% are on track.

Weaknesses

- None noted.

Section III. Planning

Quality of the Progress Report

Strengths

- Well-developed core strategies of LIVE, WORK, and PLAY are presented throughout the report. Twenty-two proposed Priority Projects are divided amongst the core strategies (6 LIVE, 10 WORK, 6 PLAY).
- There is a strong focus on the Regional Economic Cluster of Food and Beverage Manufacturing Supply Chain and discussion of its progress.

Weaknesses

- None noted.

Coordination with institutions of higher learning to address regional workforce development needs

Strengths

- The Hudson Valley Educational Consortium (HVEC) is preparing a gap analysis study to ensure that industry demand for qualified and skilled employees is being met through accessible and appropriate education, training, and resources. A full report of the analysis will be delivered to each community college in the region so that each may align its course offerings to meet the needs of the regional labor market.
- The MHREDC will continue to co-locate career center services at HVEC campuses, and deploy One Stop Operating Systems at HVEC campuses to better assist shared constituents.

Weaknesses

- None noted.

Collaboration with local governments in advancing opportunities for improved efficiency

Strengths

- For the past four years, Pace Land Use Law Center has convened mayors and staff from throughout the Hudson Valley to discuss issues of common importance focusing mainly on land use, zoning and planning. The mayors from the four Westchester County Opportunity Areas and the Village of Brewster are regular attendees.

- The Mid-Hudson Mayor’s Forum for mayors in cities north of Westchester (who typically do not attend Pace events) will continue to convene quarterly. This effort captures three more of the opportunity areas.
- Projects were proposed for CFA funding from the Department of State’s Local Government Efficiency Program, such as projects in the Village of Briarcliff and the City of New Rochelle.
- MHREDC is exploring alternative methods of assisting veterans’ participation in the workforce through scholarship programs and better identifying veterans’ business needs through consultation with local Chambers of Commerce and veterans who are currently enrolled in college programs.

Weaknesses

- None noted.

Ability to take the next steps in growing the regional economy

Strengths

- Great participation by local organizations in the Consolidated Funding Applications demonstrates a willingness of communities in the region to seek funding to address identified needs. (e.g., water quality; main street; sports and entertainment; the arts; community planning; parks and tourism investment; health centers; local waterfront; and climate smart projects).
- MHREDC is continuing outreach to investigate the needs of the Food and Beverage Manufacturing Supply Chain cluster.
- Nearly all of the proposed Priority Projects support workforce training (19 out of 22), an area that the region lacked progress in last year.

Weaknesses

- None noted.

Development of regional metrics to measure success

Strengths

- Metrics have been established to measure progress in all clusters identified within each of the three strategies of LIVE, WORK, and PLAY, such as average number of establishments, average annual employment, and average annual wages.

Weaknesses

- None noted.

Section IV. Projects

Solicitation and development of projects that advance the regional economic cluster

Regional Cluster

- Food and Beverage Manufacturing Supply Chain cluster includes the interrelated sub-industries of food and beverage manufacturing, processing and equipment which share distribution channels and customers and manufacture complementary products.

Strengths

- Six out of 22 proposed projects supported the Regional Cluster Program.

- Expansion of Star Kay White would move the primary syrup manufacturing line into a new \$20M state of the art facility to improve food safety, increase efficiency, expand production, and create jobs in the regional cluster.
- Efco produces food for commercial bakeries. The MHREDC supported the application by Efco to increase its manufacturing capacity and storage facilities.
- Revitalization of the Tuxedo/Sloatsburg Route 17 corridor would create a gateway to the Catskills and help revitalize their downtowns. It would also help create a foodie destination featuring a “Hudson Valley first” focus. This supports the LIVE strategy.
- Funding for the Star Estate Distillery would help establish an environmentally-friendly craft distillery, boutique hotel/restaurant, event space and small farm in West Park in support of the PLAY strategy.

Weaknesses

- While sound reasons may exist, background is lacking to explain why projects receiving prior funding should receive next phase funding.

Identification of projects to advance State and regional priorities.

Strengths

- Six Priority Projects are proposed in support of the LIVE strategy, 10 in support of WORK, and 6 in support of its PLAY.
- Downtown Revitalization Initiative was supported by 14 out of 22 proposed projects.
- Workforce Training was included in 19 out of 22 proposed projects.
- Opportunity Agenda strategies were addressed by 13 out of 22 proposed projects.
- Veterans Agenda was addressed by 16 out of 22 proposed projects.
- The MHREDC indicated that 8 out of 22 proposed projects addressed Global NY strategies.
- The proposed Poughkeepsie Landing Waterfront Redevelopment Project would help revitalize a distressed community identified as part of the Regional Opportunity Agenda, and provide public access and amenities along the Hudson River.

Weaknesses

- No companies were identified to take advantage of Global NY loan opportunities that would increase export sales and attract direct foreign investment. Loans of up to \$50,000 are available to promote distilled and fermented beverage businesses on a global scale.

Advancement of projects and activities to meet workforce development needs

Strengths

- The MHREDC is supporting five applications for existing employee training and two for new hire training from the NYS Department of Labor.

Weaknesses

- Little is offered in the way of a comprehensive training strategy for each of the three core regional strategies, demonstrating a vacuum the Hudson Valley Educational Consortium could fill.

Identification of projects in the region that would revitalize downtowns

Strengths

- Fully half of this year's Priority Projects are located in urban centers including Poughkeepsie, Kingston, Middletown, Yonkers, and New Rochelle.
- Fourteen proposed Priority Projects advance downtown revitalization.
- Phase 4 of the Saw Mill River daylighting project would revitalize the City of Yonkers. The daylighting project focuses on designing structures to maximize the use of natural light as an internal light source, promoting energy efficiency and visual comfort. It will include a five acre redevelopment site envisioned partly as a government center, and thought of as the gateway to the Yonkers business district.
- Construction of a Yonkers Sports & Event Center would include classrooms, a restaurant and a convention/meeting/event space. Sponsors believe it will be a tourist attraction as well as a much-needed space for local schools.

Weaknesses

- None noted.

Section V. Participation

Engagement of the community, public, and other stakeholders in the Regional Council process

Strengths

- Eight work groups comprised of 145 members from the public and private sector meet to discuss priority issues such as Global NY, the Regional Economic Cluster, Infrastructure, Natural Resources, Opportunity Agenda, Small Business/MWBE, Tourism/Path Through History, and Veterans/Workforce Development.
- The MHREDC hosted 30 public meetings, presentations, workshops, and interviews throughout all of its counties to encourage strategy-aligned Priority Project applications and CFAs, as well as stronger public private partnerships.
- The MHREDC continued to generate more CFA applications than any other region (416); and the highest number of Priority Project applications (192).

Weaknesses

- None noted.

Regional unity and support of the Progress Report and Downtown Revitalization Plan

Strengths

- Middletown was selected as the region's DRI community in recognition of its prior planning efforts, strong leadership, sound financial standing, recent infrastructure investments, and high level of community support.
- Commitment to downtown revitalization is evident in the MHREDC's 2016 funding recommendations, as fully half of this year's proposed Priority Projects are located in urban centers.
- The MHREDC region had the largest number of Downtown Revitalization Initiative applications (36).

Weaknesses

- None noted.
