

Capital Region Regional Economic Development Council 2018 Annual Report Assessment

I. Performance

a. Impact on job creation and retention

Strengths

- From 2016 – 2017, the Advanced Manufacturing cluster (2.6 percent) and Food and Agriculture Cluster (2.8 percent) had similar increases in average annual employment (AAE).
- From 2016 – 2017, the Life Sciences cluster had an 18.3 percent increase in AAE.
- R&D to Commercialization is the targeted cluster for the region. Total jobs increased 1 percent from 2016 to 2017. Average earnings per job amounted to \$107,217 in 2017.
- The labor force participation rate of 25- to 64-year-olds without a high school degree increased nearly 5 percent (4.8 percent) between 2015 and 2016.
- As of 2017, the regional unemployment rate was 4.4 percent, as compared to a statewide unemployment rate of 4.7 percent. However, from 2016 – 2017, the regional unemployment rate increased, which is contrary to trends for other regions in the state.

Weaknesses

- The veteran unemployment rate for 2016 was 8.3 percent, as compared to a statewide rate of 5.8 percent. The regional rate increased by 6.4 percent from 2015 to 2016.

b. Business growth and leverage of private sector investments

Strengths

- The number of private sector establishments in the region was 28,605, an increase of 1.0 percent from 2016.
- National Institutes of Health (NIH) funding in the region increased by over 1 percent from 2016 – 2017 to \$54.6 million, though Statewide funding increased by 8.2 percent.
- From 2011 – 2017, the ratio of total project cost to total ESD Capital Fund awards for all Priority Projects was 8.15 to 1 (excludes cancelled or declined projects).

Weaknesses

- None noted.

II. Progress

a. Implementation of regional strategies described in a previous REDC plan and plan updates

Strengths

- Construction continued at the Port of Albany, one of the region's gateways. Work included the completion of a climate-controlled warehouse for heavy equipment and a new roll-on and roll-off barge slip. Both projects are scheduled to be completed at the end of September.
- Hudson Valley Community College (HVCC) launched its first Manufacturing Technology Pathways boot camp in January 2018 as part of the Center for Economic Growth's (CEG) 2017

Advanced Manufacturing Pathways Project. The short-term, stackable credential training program got an extra boost when CEG was awarded a \$250,000 KeyBank Foundation grant in June 2018.

- Albany Can Code connects local software companies with talent acquisition. Schenectady County Community College (SCCC) received funding for Albany Can Code software training programs in Rounds VI and VII. In December 2017, KeyBank awarded a \$75,000 grant to support the employer engagement program and expansion of course offerings.
- In 2017, the Biomedical Accelerator and Commercialization Center (BACC) increased its number of partner companies from 5 to 9; launched an internship program in coordination with Albany Medical College, Union and Rensselaer Polytechnic Institute; and held an entrepreneurship boot camp in collaboration with Siena College.

Weaknesses

- None noted.

b. Execution of strategies that address state priorities or emerging state challenges and opportunities

Strengths

- In 2017, CEG hired a consulting firm to analyze the region's Life Sciences cluster and to develop an action plan to improve commercialization of local life sciences innovations, strengthen the region's life science ecosystem and recruit contract research organizations to the region.
- Innovate 518, launched in May 2017, provided services to more than 400 startup businesses through the affiliated partner network. Its website now has an online tutorial for early-stage technology start-ups. The Center of Gravity in Troy, another affiliated partner, launched a prototyping center and manufacturing incubator in 2018.

Weaknesses

- None noted.

c. Success in workforce development initiatives, including engagement of hard-to-place workers

Strengths

- A 2018 grant from KeyBank is helping the CEG and partners expand the region's state-certified minority business enterprises (MBEs). The number of state-certified minority women-owned business enterprises (MWBs) increased by 8 percent since July 2017, with help from events, workshops and microloans.
- The number of New York State-certified service-disabled, veteran-owned businesses (SDVOBs) in the Capital Region increased to 46 as of July 2018. This represents a 35 percent increase from July 2017.

Weaknesses

- CRREDC did not demonstrate activity related to other types of hard-to-place workers, such as the formerly incarcerated, blind, mentally ill or those in poverty.

d. Advancement of projects that revitalize downtowns

Strengths

- In spring 2018, Glens Falls acquired two vacant, deteriorating buildings that will be demolished for the site of a year-round farmers' market and multi-story parking structure, activities supported by the city's Downtown Revitalization Initiative (DRI) Strategic Investment Plan. The CRREDC is supporting a CFA for further development of the South/Elm Street area in a project critical to the DRI plan.
- The CRREDC supported over 50 proposed Priority Projects and other projects with downtown revitalization components, including additional funding through the CFA for the North Bay Regeneration project, a project identified in the Hudson DRI Strategic Investment Plan.
- The CRREDC supported several applications for funding for projects in the Albany DRI area.

Weaknesses

- None noted.

e. Advancement of prior round Priority Projects

Strengths

- Nearly 70 percent of all priority projects and 82 percent of all CFA projects are completed or on schedule. 13 priority projects and 75 other projects funded through the CFA were completed in the past year.

Weaknesses

- 22.3 percent of priority projects awarded (40 out of 179) have been cancelled or funding was declined.

III. Planning

a. Quality of the Annual Report

Strengths

- The report is well designed and has attractive graphics/imagery. The project placement maps and tables indicating regional and state strategies are especially helpful.

Weaknesses

- None noted.

b. Ability to take the next steps in growing the regional economy

Strengths

- The regional poverty rate was 11.5 percent in 2015, compared to a state rate of 15.7 percent. This is a decrease from a rate of 11.6 percent in 2014.

Weaknesses

- The region did not mention how it would incorporate immigrants into its core strategies. The percentage of green cards issued increased by over 25 percent from 2015 – 2016, outpacing that of the state.
- Although the region indicates large increases in the number of individuals receiving STEM degrees, there is little mention of efforts taken to retain graduates in the area as part of the region's workforce.

c. Coordination with institutions of higher learning to address regional workforce development needs

Strengths

- The region continues to work closely with community colleges and universities to implement programs to improve and expand the region's workforce, including through apprenticeship programs and skills-based boot camps.

Weaknesses

- None noted.

d. Collaboration with local governments in advancing opportunities for improved efficiency

Strengths

- The CRREDC engaged local officials on a variety of initiatives relating to key priorities.
- The Center for Economic Growth (CEG) worked with local officials to promote the video game development cluster. CEG also engaged local officials to help identify and promote potential sites for development.

Weaknesses

- None noted.

IV. Proposed Projects

a. Solicitation and development of proposed projects that advance the regional economic cluster

Regional Economic Cluster

The regional cluster is R&D to Commercialization.

Strengths

- Four of the proposed priority projects would advance the regional cluster, as well as 1 non-priority project.

Weaknesses

- None noted.

b. Identification of proposed projects for 2018 to advance State and regional priorities

Strengths

- The CRREDC supports 4 priority projects to aid in the growth of the Life Sciences sector. For example, the region has recommended funding for a new PiSA BioPharm manufacturing plant to accommodate production of sterile injectables and specialized biomedical supplies at the Rotterdam Corporate Park.
- To aid in the growth of the tourism economy, the CRREDC supports several projects, such as modernizing the Saratoga Performing Arts Center (SPAC) and building a new hospitality center at Gore Mountain.
- The CRREDC supported several priority projects to aid in the growth of the Agriculture and Food Production sector, including a training program at Finch Paper.

- The CRREDC supported nearly 40 priority projects and other projects it thinks will make the regional economy more inclusive and provide employment for veterans. For example, a greenhouse that will use energy-efficient design at Capital Roots' Urban Grow Center will be located in a designated Opportunity Zone and provide job readiness training for the chronically unemployed.

Weaknesses

- None noted.

c. Advancement of proposed projects for 2018 to meet workforce development needs

Strengths

- Many of the proposed priority and other projects supported by the CRREDC are listed as having a workforce development component, though that aspect was not always clear from the project descriptions.

Weaknesses

- None noted.

V. Participation

a. Engagement of the community, public, and other stakeholders in the Regional Council process

Strengths

- The CRREDC reconstituted its workgroups to align regional strategies and statewide priorities. The number of workgroups increased from eight to eleven with focuses ranging from business development to placemaking and workforce development.
- CEG also formed five working groups, comprised of more than 40 community and business leaders: Advanced Electronics/Manufacturing, Cleantech, Digital/IT, Logistics and Warehousing, and Life Sciences/BIO.
- The CRREDC conducted 33 workshops, seminars and conferences throughout the Capital Region in 2018. More than 630 people attended, which drove 285 one-on-one meetings and 35 proposed project site tours.

Weaknesses

- None noted.

b. Regional unity and support of the Annual Report

Strengths

- Proposed priority projects are in each of the region's eight counties, with concentration in the tri-city area. This is an improvement from the 2017 progress report.

Weaknesses

- Washington and Greene counties each only have one proposed project.
