

Mid-Hudson Regional Economic Development Council

2018 Annual Report Assessment

I. Performance

a. Impact on job creation and retention

Strengths

- From 2012 – 2017, Priority Projects are projected to have retained 10,261 jobs and created 2,756 jobs. In the same period, CFA projects (including Priority Projects) are projected to have retained 13,610 jobs and created 6,721 jobs.
- Wage growth has been strong in the Biotech and Biomedical cluster (78.29 percent since 2011) and Healthcare cluster (13.19 percent since 2011).
- The Agriculture, Food & Beverages, and Tourism, Arts and Culture sectors identified in the PLAY strategy continue to be significant drivers. For example, from 2016 – 2017 the Food and Agriculture cluster had a 4.9 percent increase in average annual employment (AAE).
- As of 2017, the regional unemployment and veteran unemployment rates were below that of the state, with regional unemployment at 4.5 percent versus a state rate of 4.7 percent; and veteran unemployment in region at 5.4 percent versus a state rate of 5.8 percent.
- Average annual private employment increased 1.4 percent from 2016 -2017, and 8.7 percent since 2011.

Weaknesses

- Though lower than the state average, the veteran unemployment rate in the region increased by 0.7 percent from 2016-2017.
- From 2016 – 2017, the Life Sciences cluster had a 0.33 percent decrease in AAE. The report points to automation as a possible cause.
- From 2016 – 2017 the AAE in the Advanced Manufacturing sector decreased 4.5 percent.

b. Business growth and leverage of private sector investments

Strengths

- The number of private sector establishments in the Biotech/Biomedical and Healthcare clusters in the region was 20,601, an increase of 1.2 percent from 2016-2017.
- The number of establishments in the Distribution cluster has grown by nearly 9 percent since 2011, and employment in the sector grew by 23 percent. At the same time, wages decreased by 2 percent.
- The Gross Regional Product rose 12.3 percent increase since 2011. The region makes up 9.7 percent of statewide GDP.
- From 2011 – 2017, the ratio of total project cost to total ESD Capital Fund awards for all Priority Projects was 14 to 1 (excludes cancelled or declined projects), and 7 to 1 for all CFA projects.
- From 2016-2017, the number of private sector establishments in the Food and Agriculture sector in the region increased by nearly half a percent.

Weaknesses

- None noted.

II. Progress

a. Implementation of regional strategies described in a previous REDC plan and plan updates

Strengths

- Projects aligned with placemaking and smart growth concepts that improve housing, public infrastructure, and public spaces are advancing. For example, a project to revitalize a blighted part of the Route 17 corridor in the Village of Sloatsburg, several new public trails; and the Queen City Lofts mixed-use project in Poughkeepsie that will provide low rent apartments for artists.
- There has been considerable expansion of biomedical and biotech facilities at major academic institutions in the region.
- Jawonio Inc., the largest regional provider of job training and placement, is using its ESD capital grants to improve its campus and better assist underserved populations in obtaining employment.
- The LegoLand resort and theme park was granted site approval and will provide 1,300 jobs upon opening in 2020.

Weaknesses

- None noted.

b. Execution of strategies that address state priorities or emerging state challenges and opportunities

Strengths

- MHREDC continues to collaborate with the Mid-Hudson economic development organizations and municipal and county governments to identify potential sites for companies in the life sciences Cluster.
- The MHREDC report highlights exponential growth in the region's craft beverage industry, which has had a ripple effect on the regions' downtown areas.
- BioInc@NYMC (CFA 2017) is a biotechnology incubator at New York Medical College, with support from the federal government, New York State, and Westchester County. Over 42 jobs have been created by start-ups incubating at BioInc and the space is expected to be fully occupied before the end of 2018.
- 47 percent of all funded and progressing priority projects in the region are in Opportunity Agenda areas.
- The MHREDC now has a database of all directors and coordinators of veteran services, as well as the coordinating councils for all vet organizations in each county. The Council is currently developing the database of veteran services contacts at higher education institutions.

Weaknesses

- None noted.

c. Success in workforce development initiatives, including engagement of hard-to-place workers

Strengths

- The MHREDC initiated industry-based roundtables to identify workforce development challenges in the regionally-significant industries of manufacturing, hospitality and healthcare. The purpose is to bring together industry, professional associations, and academic institutions to discuss both short- and long-term workforce needs. The discussion on manufacturing resulted in

recommendations related to partnerships with schools, promotion of the manufacturing industry, and addressing misperceptions.

- The MHREDC has been reaching out to regional hospitality firms and employers such as LEGOLAND to help meet their workforce needs.
- Touro college of Osteopathic Medicine in Orange County graduated its first class of 117 doctors in 2018.

Weaknesses

- The report does not demonstrate significant efforts to specifically engage hard-to-place and disadvantaged residents.

d. Advancement of projects that revitalize downtowns

Strengths

- 9 of 21 proposed 2018 Priority Projects are listed as having a downtown revitalization component, including the Portchester Waterfront Revitalization Project.

Weaknesses

- None noted.

e. Advancement of prior round Priority Projects

Strengths

- 66 percent of all priority projects (71 of 107) and 77 percent of all CFA projects (531 of 693) are completed or on schedule. Only 14 percent of priority projects awarded (16 out of 107) have been cancelled or funding was declined.
- The report describes progress in the implementation of the region's LIVE WORK PLAY strategy by pointing to specific CFA projects and their accomplishments.

Weaknesses

- None noted.

III. Planning

a. Quality of the Annual Report

Strengths

- None noted.

Weaknesses

- At times the report is difficult to follow, and while it makes extensive use of graphics, the graphics sometimes obscure and distract from key information.
- Limited analysis of the metrics was provided, and few if any success thresholds were provided.

b. Ability to take the next steps in growing the regional economy

Strengths

- The region has well-developed core strategies through its LIVE, WORK, PLAY vision.

- Regional strategies seek to address youth flight and draw investment into downtowns while ensuring high quality of life for residents.
- Visitor spending has increased by nearly 21 percent since 2011.
- The MHREDC is working to develop a plan to create opportunities for craft beverage manufacturers to collaborate to enhance regional growth in the industry.

Weaknesses

- While the regional poverty rate is just over 11 percent, compared to a state rate of 15.5 percent, the poverty rate increased by over 10 percent from 2011-2016, with poverty going up in every age group and especially among the elderly.

c. Coordination with institutions of higher learning to address regional workforce development needs

Strengths

- There are many partnerships among regional academic institutions, especially in the Biomedical and Biotech cluster, including the BioInc incubator, though partnerships do not appear to involve community colleges.
- The GoMakelt campaign continues as a tool for middle school and high school teachers to expose students to careers in manufacturing.

Weaknesses

- Collaborations with academic institutions are narrowly focused on STEM and manufacturing, with little mention of education/training in other fields, including entrepreneurship, the liberal arts and humanities, design, sustainability, and many more.
- While the MHREDC report indicates plans to create a forum for regional colleges and universities to learn more about life sciences workforce needs in the region, the forum is still conceptual.

d. Collaboration with local governments in advancing opportunities for improved efficiency

Strengths

- The MHREDC supported several proposed projects this year vying for Local Government Efficiency Program funding, including a sewer consolidation study in Rockland and a shared water efficiency fleet wash in Orange County.

Weaknesses

- None noted.

IV. Proposed Projects

a. Solicitation and development of proposed projects that advance the regional economic cluster

Regional Economic Cluster

The regional cluster is the Food and Beverage Manufacturing Supply Chain.

Strengths

- 9 out of 21 proposed Priority Projects would advance the regional cluster. One of these is GoPal Farm, LLC, a biodynamic, no-kill dairy and fresh produce farm located in New Paltz, which produces heirloom traditional ethnic fruits, vegetables and dairy products.

- 12 other proposed CFA projects are reported as supporting the regional cluster. For example, a Market New York project that would promote cidery and agritourism.

Weaknesses

- None noted.

b. Identification of proposed projects for 2018 to advance State and regional priorities

Strengths

- The MHREDC supported 3 priority projects to aid in the growth of the Life Sciences sector, such as creating a new Research Institute for Brain & Body Health at the Center for Discovery.
- To aid in the growth of the tourism economy, the REDC supported 6 priority projects. One example is The Wildberry Lodge and Spa, a world class themed hotel, spa, and wellness center with one of largest butterfly conservatories in North America.
- The MHREDC supported 9 projects to advance strategies to make the regional economy more inclusive. For example, the Academy Street Market in Poughkeepsie will provide job opportunities and offer fresh foods to low income families that would otherwise not have access. Similarly, the Thornwillow Maker's Village will provide workforce training and job opportunities to local residents, including veterans.
- The MHREDC supported 2 projects to promote veterans' participation in the workforce and in the CFA. For example, the Research Institute for Brain and Body Health proposed for Sullivan County would employ veterans and provide training and education opportunities to new employees.

Weaknesses

- None noted.

c. Advancement of proposed projects for 2018 to meet workforce development needs

Strengths

- 5 of the proposed 21 Priority Projects and several other projects are listed as having a Workforce Development Component, including capital improvements that would facilitate expansion of job creation programs at Greyston, a cutting-edge social enterprise focused on business as a force for good.
- Innovation Grand Street, a proposed Priority Project submitted by the Orange County Community College Association, would renovate two vacant or underutilized buildings in Newburgh's downtown to create space for training and programming, focusing on the food, beverage and entertainment cluster. Entrepreneurial training would also be provided.
- Ametek Rotron is an aerospace and defense manufacturing company. The company proposed site improvements that will support a new advanced manufacturing facility in Woodstock. The company plans to attract students from the Pathways Academy (a BOCES program directed to students that may struggle in typical classroom settings) to additive manufacturing and engineering product development.

Weaknesses

- None noted.

V. Participation

a. Engagement of the community, public, and other stakeholders in the Regional Council process

Strengths

- THE MHREDC has eight work groups made up of hundreds of public and private sector stakeholders.
- The MHREDC hosted 23 public meetings, presentations, workshops, and interviews through the seven-county region this year with a total of 1,384 stakeholders.
- In 2018 the MHREDC received more CFA applications than any other region (385) and the largest number of Downtown Revitalization Initiative applications (27) statewide.

Weaknesses

- None noted.

b. Regional unity and support of the Annual Report

Strengths

- Most counties in the region contain proposed Priority Projects, with the majority of projects in Ulster and Orange County.

Weaknesses

- There are no Priority Projects proposed in Putnam County, which may be due to a lack of applications rather than a lack of MHREDC selection.
