

Western New York Regional Economic Development Council 2018 Annual Report Assessment

I. Performance

a. Impact on job creation and retention

Strengths

- From 2012 – 2017, Priority Projects are projected to have retained 7,852 jobs and created 2,996 jobs. During the same period, CFA projects (including Priority Projects) are projected to have retained 10,500 jobs and created 3,600 jobs.
- From 2016 – 2017, the Advanced Manufacturing cluster had a 0.9 percent increase in average annual employment (AAE). The Agriculture cluster grew 1.5 percent increase in AAE.
- As of 2017, the regional unemployment rate was less than one percent higher than the state rate (5.5 percent vs 4.7 percent).

Weaknesses

- Notwithstanding the reduction in average annual unemployment across all age groups, average annual employment (AAE) showed little change from May 2017 – May 2018.
- As of 2017, the veteran unemployment rate was two percentage points higher than the state rate (7.8 percent vs 5.8 percent).
- Materials and Machinery Manufacturing is the targeted cluster for the region. While total wages increased in this industry between 2011 and 2017, total job count decreased by 5.3 percent and the number of firms decreased by 5 percent.
- The Life Sciences cluster had a 5.7 percent decrease in AAE from 2016 – 2017.

b. Business growth and leverage of private sector investments

Strengths

- From 2011 – 2017, the ratio of total project cost to total ESD Capital Fund awards for all Priority Projects was 7 to 1 (excludes cancelled or declined projects).
- The number of private sector establishments in the region increased 1.1 percent since 2017.

Weaknesses

- Since the CFA was introduced, the ratio of total project cost to all CFA projects (including Priority Projects) was 5 to 1. Last year the ratio was 3 to 1.

II. Progress

a. Implementation of regional strategies described in a previous REDC plan and plan updates

Strengths

- The Western New York Regional Economic Development Council (WNYREDC) supports projects on Buffalo's East side because it holds over 40% of the city's total land area, over 40% of the city's total residents, and about 30% of the city's total jobs and businesses, yet has lower labor force participation rates, and lower educational attainment rates than the rest of the city. Projects

include the East Side Corridor Economic Development Fund (Buffalo Billion II), Northland Corridor Redevelopment Area, and the Buffalo Neighborhood Stabilization initiative.

- Buffalo Manufacturing Works initiated or completed 110 funded projects totaling more than \$4M in private sector investment. This company helps provide a competitive advantage area for local manufacturers to help expand in to new markets, boost productivity, and stimulate innovation and growth for the region's advanced manufacturing sector.
- One strategy in the region is to invest in tourism opportunities to increase visitor spending and expand employment and wages. The National Comedy Center in Jamestown opened and is projected to attract more than 114,000 visitors each year and give a \$23M boost to the local economy annually; and new exhibits at the Aquarium of Niagara are projected to attract an additional 30,000 visitor per year.

Weaknesses

- None noted.

b. Execution of strategies that address state priorities or emerging state challenges and opportunities

Strengths

- The Fredonia Technology Incubator expanded outreach efforts to include veterans, young professionals, and the Hispanic community. The Veterans One-stop Center of WNY collaborated with the Health Care for Homeless Veterans program in Jamestown to provide resources and services to veterans that are homeless or at risk of homelessness.

Weaknesses

- None noted.

c. Success in workforce development initiatives, including engagement of hard-to-place workers

Strengths

- The Burgard Advance Manufacturing Program prepares high school students for careers in advanced manufacturing. The program allows students to obtain their associates degree from Alfred State College in machining, welding and automotive trades. Burgard then provides opportunities like college and job placement. (A Buffalo Billion initiative.)
- WNYREDC has invested in "life skills" training programs as well as increased support and accessibility for on-the-job training.
- WNYREDC has expanded apprenticeship models and created transferable skill training programs which can be seen in the Northland Workforce Training Center and Workforce Development Challenge. The Workforce Development Challenge launched this year will invest in innovative approaches to workforce training for underserved populations that ensure the region's workforce is responding to industry demands.
- Erie 1 BOCES increased in capacity in 2017, making renovations that included 22 new welding booths that allowed class size to expand.

Weaknesses

- One regional strategy is to increase access to public transportation in rural and other underserved areas. They do not appear to have addressed this challenge rural areas.

d. Advancement of projects that revitalize downtowns

Strengths

- Five of the proposed 2018 Priority Projects and 24 of other proposed 2018 projects supported by the WNYREDC are listed as having a downtown revitalization component. For example, funding would result in the acquisition of land along the Chadakoin River the City of Jamestown, a project included in its Downtown Revitalization Initiative (DRI) Plan.
- The report notes that \$194 million from the Buffalo Billion is invested to revitalize neighborhoods and downtowns, including \$20 million from a Smart Growth Community Fund.

Weaknesses

- None noted.

e. Advancement of prior round Priority Projects

Strengths

- 82 percent of all priority projects (100 of 122) are completed or on schedule, and 85 percent of all CFA projects (558 of 658) are completed or on schedule. Only 11 percent of priority projects awarded (13 out of 122) have been cancelled or funding was declined.

Weaknesses

- None noted.

III. Planning

a. Quality of the Annual Report

Strengths

- WNY annual report provides good details relating to project progress.
- Included a Buffalo Billion section this year. This addition helps show how projects are being funded.

Weaknesses

- None noted.

b. Ability to take the next steps in growing the regional economy

Strengths

- New corporation filings have increased by 79% since 2011.
- From 2010 to 2016 WNY saw a 6.1% increase in the young adult population. Although from 2015 to 2016 the population dipped by 1,827 individuals.
- The average annual unemployment rate decreased for age group 16-24 from 16.9% in 2011 to 11.4% in 2016, although they are still an outlier when compared to other age groups.

Weaknesses

- The labor force participation rate, which reflects the share of people who are employed or looking for work, is down overall, following national and statewide trends. The region's aging workforce and retirements drive this reduction in labor force participation.

c. Coordination with institutions of higher learning to address regional workforce development needs

Strengths

- The University at Buffalo is a large partner in many different ventures. For example, they are a part of WNY Incubator Network and The Innovation Hub, and the Jacobs School of Medicine and Biomedical Sciences has increased class size to help fill the physician shortage in the region.
- The Burgard Advanced Manufacturing Program partners with Alfred State College to allow high school students to take college level courses in machining, welding and automotive trades.
- In the past year, Northland Workforce Training Center has developed a curriculum with Erie Community College and Alfred State College.

Weaknesses

- None noted.

d. Collaboration with local governments in advancing opportunities for improved efficiency

Strengths

- WNYREDC and staff conducted meetings and tours with local government officials to further understand community needs, collaborate on projects, connect municipal partners with state agency representatives, and strategize on ways to enhance business climates or foster community revitalization and overall further the WNYREDC's goals.

Weaknesses

- None noted.

IV. Proposed Projects

a. Solicitation and development of proposed projects that advance the regional economic cluster

Regional Economic Cluster

- Advanced Manufacturing: Materials & Machinery Manufacturing Cluster

Strengths

- The WNYREDC supported three Priority Projects in the cluster that will create and retain jobs, such as construction by Rosina Food Products of a new 120,000 SF plant with a high speed, state-of-the-art production line.

Weaknesses

- None noted.

b. Identification of proposed projects for 2018 to advance State and regional priorities

Strengths

- To aid in the growth of the tourism economy, the WNYREDC supported 5 priority projects. One example is Explorers Reef Touch Pools at the Aquarium of Niagara.
- The WNYREDC supported 10 projects to advance strategies to make the regional economy more inclusive. For example, the Statler Center Hospitality Training and Job placement program.

- The Fredonia Technology Incubator, located in Dunkirk, is supported for funding through the ESD Regional Hot Spot program.
- The WNYREDC supported 4 priority projects to aid in the growth of the Life Sciences sector. For example, they recommended funding for Center for Therapeutic Interactions.

Weaknesses

- None noted.

c. Advancement of proposed projects for 2018 to meet workforce development needs

Strengths

- Several non-priority projects support training programs, such nursing and the culinary arts.
- The WNYREDC recommended funding for training and job placement for hard-to-place individuals, such as the visually impaired and refugees.

Weaknesses

- Only 1 proposed Priority Project was listed as having a workforce development component.

V. Participation

a. Engagement of the community, public, and other stakeholders in the Regional Council process

Strengths

- WNYREDC sent out a Letter of Intent to identify CFA projects and the technical assistance needs of applicants. Two CFA workshops and three CFA public information sessions were held for potential applicants.
- ESD staff met one-on-one with community leaders.

Weaknesses

- There is very little representation of people from the southern portion of the region in the work groups compared to other parts of the region.

b. Regional unity and support of the Annual Report

Strengths

- None noted.

Weaknesses

- There were no Proposed Priority Projects in Cattaraugus County and only one for Allegany County.
