

NYS Energy Research & Development Authority (NYSERDA)

Commercial & Industrial Carbon Challenge

Q. Can a project or measure receive funding for this program in conjunction with an award from the NYSERDA Energy Efficiency Programs?

A. No. A project/measure awarded through this program will be ineligible for funding from other utility or NYSERDA energy efficiency or renewable energy programs.

Q. Does the facility have to pay into the SBC in order to be eligible to apply?

A. Yes, all participants will be required to pay SBC.

Q. How do I determine if I meet the 3 MW average monthly peak demand minimum size requirement?

A. Average monthly peak demand can be calculated by summing the peaked demand listed on your electricity bills on each bill for the preceding 12 months and dividing the result by 12.

Q. I have multiple sites across the state at which I would like to do projects. Do I have to submit an application for each?

A. No, you can submit one application for projects at multiple sites. Note that each site must be under the control of a single utility ratepayer.
