

## REDC Round 12 Programs

*Below is a full list of programs that have been scored as part of the Round 12 Regional Economic Development Council Initiative. As individual agencies and programs make REDC Round 12 Award Announcements, the list of awards will be added to this booklet. For other standalone programs please refer to the individual agency/program website for more information on awards/announcements.*

Program	Program Description
<b>NYS Canal Corporation (Canals)</b>	
Canalway Grant Program (Canals)	The Canalway Grant Program is a competitive matching grant program available to eligible municipalities and 501(c)(3) non-profit organizations along the New York State Canal System. Funding is for capital projects that expand public access, increase visitation and recreational use, stimulate private investment, improve services and amenities for Canalway land and water trail users, and enhance the connections between the canal and the corresponding region consistent with the Reimagine the Canals initiative as well as the Regional Economic Development Councils Strategic Plans.
<b>NYS Department of Agriculture and Markets</b>	
New York State Grown & Certified Infrastructure, Technology, Research and Development Grant Program (G&C ITRD)	The New York State Grown & Certified Infrastructure, Technology, Research and Development Grant Program provides grants on a competitive basis to eligible applicants (Program Administrators) that will operate a grant program to assist New York farms with growing their business. The program will help agricultural entities to invest in critical farm infrastructure, adopt state-of-the-art practices, purchase innovative technology or equipment, or conduct cutting edge research to aid in the development of new food products, marketed under the New York State Grown & Certified program (NYS G&C), that meet rising consumer demand.
<b>Department of State (DOS)</b>	
Local Waterfront Revitalization Program (DOS LWRP)	The Department of State's Local Waterfront Revitalization Program (LWRP), funded under Title 11 of the Environmental Protection Fund, provides matching grants on a competitive basis to eligible villages, towns, cities, and counties located along New York's coasts or designated inland waterways for planning, design, and construction projects to revitalize communities and waterfronts. Grant categories include preparing or updating an LWRP; preparing an LWRP Component, including a watershed management plan; updating an LWRP to mitigate future physical climate risks (UCR); and implementing an LWRP or a completed LWRP Component. This program helps communities breathe new life into their waterfront and underused assets in ways that ensure successful and sustainable revitalization.
Brownfield Opportunity Area Program (DOS BOA)	The Department of State's Brownfield Opportunity Area program, funded under the Environmental Protection Fund, provides grants on a competitive basis to eligible municipalities, certain community-based not-for-profit organizations, and NYC Community Boards to complete development of a Brownfield Opportunity Area (BOA) Plan, a planning and revitalization study, for a community affected by known or suspected brownfields, to undertake predevelopment activities to advance project implementation within a State-designated BOA or to undertake environmental site assessments within a State-designated BOA. This program provides resources to New York communities to transform known and suspected brownfields from liabilities to community assets that generate businesses, jobs and revenues for local economies and provide new housing and public amenities.
<b>Empire State Development (ESD)</b>	
ESD Grant Funds (ESD Grants)	ESD has several grant programs that together make available \$150 million of capital grant funding for the Regional Economic Development Council Initiative. Capital grant funding is available for capital-based economic development projects intended to create or retain jobs; prevent, reduce or eliminate unemployment and underemployment; and/ or increase business or economic activity in a community or Region.
Excelsior Jobs Program (ESD EJP)	Refundable tax credits are available to businesses in targeted industries (e.g. high-tech, bio-tech, clean-tech, manufacturing) that create net new jobs or retain jobs and make significant capital investments. Businesses meeting the eligibility criteria may apply for assistance by contacting their Regional Office within New York State.

Program	Program Description
Business Incubator Support Program (ESD BISP)	Designated Business Incubators and Innovation Hot Spots will be eligible for operating grants from ESD for five years. Business Incubators and Innovation Hot Spots accelerate the development of early stage companies through a structured array of business support resources and services targeted to the needs of startup companies. Innovation Hot Spots also coordinate regional entrepreneurial ecosystems, and can offer tax benefits to client businesses.
Market New York (ESD MNY)	Market New York is a grant program established to strengthen tourism and attract visitors to New York State by promoting destinations, attractions and special events. Funding is available for tourism marketing initiatives, capital/construction projects and the recruitment and/or execution of special events, including meetings, conferences, conventions, festivals, agritourism/craft beverage events, athletic competitions and consumer and industry trade shows.
<b>Homes and Community Renewal, Office of Community Renewal (HCR and HCR/OCR)</b>	
New York Main Street Program (HCR NYMS)	The New York Main Street (NYMS) program was formally established in Article 26 of New York State Private Housing Finance Law. The NYMS program is administered by the Office of Community Renewal (OCR) under the direction of the Housing Trust Fund Corporation (HTFC). NYMS funds are awarded to units of local government and not-for-profit organizations that are committed to revitalizing historic downtowns, mixed-use neighborhood commercial districts, and village centers. NYMS grants are available for technical assistance projects or targeted improvements such as facade renovations, interior commercial and residential building renovations, and streetscape enhancement projects.
<b>Office of Parks, Recreation and Historic Preservation (Parks)</b>	
Environmental Protection Fund: Parks, Preservation and Heritage Grants (OPRHP: PKS: A/P/D; HP:A/P/D; HAS: A/P/D)	The Environmental Protection Fund Grants Program (EPF) provides matching grants on a competitive basis for the acquisition, planning, and development of parks, historic properties, and heritage areas located within the physical boundaries of the State of New York. Parks is for the acquisition, development and planning of parks and recreational facilities to preserve, rehabilitate or restore lands, waters or structures for park, recreation or conservation purposes and for structural assessments and/or planning for such projects. Historic Preservation is to acquire, improve, protect, preserve, rehabilitate or restore properties listed on the State or National Register of Historic Places and for structural assessments and/or planning for such projects. Heritage Areas is for projects to acquire, preserve, rehabilitate or restore lands, waters or structures identified in the approved management plans for Heritage Areas designated under section 35.03 of the Parks, Recreation and Historic Preservation Law, and for structural assessments or planning for such projects.
<b>New York State Energy Research and Development Authority (NYSERDA)</b>	
Carbon Neutral Community Economic Development Program (NYSERDA CNCED)	The New York State Energy Research and Development Authority's Carbon Neutral Community Economic Development program encourages the planning design and installation of economic development projects that operate at carbon neutral or net zero energy performance in three categories. In Category A, the program supports eligible commercial, industrial and institutional applicants for the construction of, or renovation to, buildings designed to achieve carbon neutral or net zero energy performance. In Category B, the program supports eligible community, campus or large-scale private development applicants with incentives for planning at the community-level to achieve carbon neutral performance. In Category C, incentives are available for the incremental cost of planning, design, construction, and installation of all technologies to reduce emissions or greenhouse gas equivalent emissions, for projects such as the decarbonization of an existing central plant or the modification of industrial processes to significantly reduce emissions related to the process.
Commercial and Industrial Carbon Challenge (NYSERDA CICC)	NYSERDA's C&I Carbon Challenge provides awards to large energy users to unlock highly cost-effective carbon reduction opportunities. C&I Carbon Challenge helps companies and organizations implement their best energy-saving/carbon-reduction projects through a competitive proposal process. Challenge winners will work one-on-one with a dedicated NYSEDA resource on all their proposed projects rather than navigating multiple different NYSEDA or utility initiatives.

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
ESD Grants	Capital Region	125388	Saratoga	G&G LED LLC	G & G Industrial Lighting Relocation and Expansion Project	G&G Industrial Lighting designs and manufactures industrial LED lighting products that can withstand hard environments for sale to the automotive, food processing, and transportation industries. G&G will relocate and expand their current manufacturing and corporate headquarters to the Town of Malta. The project includes building rehabilitation and construction and the purchase of new machinery and equipment, which will enhance G&G's manufacturing capability and create new jobs through an increase in on-site production and storage capacity. It will also create space for additional research and development facilities and new manufacturing equipment.	\$900,000	X	7/31/2023
ESD Grants	Central New York	125241	Cayuga	Cuff Farm Services, Inc.	Robotic Laser Expansion Project	Cuff Farm Services, Inc. will expand and upgrade welding and auger repair equipment in Auburn, Cayuga County. The project includes the design, construction, and installation of a robotic welding cell to repair augers in manure separators. The new equipment will enable Cuff Farm Services to increase service capacity, contributing to the region's Agricultural economy by providing significant savings to farmers' operating costs and reducing equipment downtime.	\$140,000	X	7/31/2023
ESD EJP	Central New York	125241	Cayuga	Cuff Farm Services, Inc.	Robotic Laser Expansion Project	Cuff Farm Services, Inc. will expand and upgrade welding and auger repair equipment in Auburn, Cayuga County. The project includes the design, construction, and installation of a robotic welding cell to repair augers in manure separators. The new equipment will enable Cuff Farm Services to increase service capacity, contributing to the region's Agricultural economy by providing significant savings to farmers' operating costs and reducing equipment downtime.	\$100,000		7/31/2023
ESD Grants	Central New York	125745	Madison	Lowville Producers Dairy Cooperative, Inc.	Dairy Processing Plant Acquisition	Lowville Producers Dairy Cooperative, Inc. will purchase, repair and operate the Queensboro dairy processing plant in Canastota, Madison County. The processing plant is a milk balancing plant, also known as a milk reception or milk collection center, that within the dairy industry serves as a central point for the collection and processing of raw milk from various dairy farms. The project includes the purchase of the operation and improvements to the building, as well as the purchase and installation of new equipment.	\$1,322,000	X	7/31/2023
ESD EJP	Central New York	125745	Madison	Lowville Producers Dairy Cooperative, Inc.	Dairy Processing Plant Acquisition	Lowville Producers Dairy Cooperative, Inc. will purchase, repair and operate the Queensboro dairy processing plant in Canastota, Madison County. The processing plant is a milk balancing plant, also known as a milk reception or milk collection center, that within the dairy industry serves as a central point for the collection and processing of raw milk from various dairy farms. The project includes the purchase of the operation and improvements to the building, as well as the purchase and installation of new equipment.	\$500,000		7/31/2023
ESD Grants	Central New York	120158	Onondaga	Clinton's Ditch Cooperative Company, Inc.	Plant Expansion and Transportation Center	Clinton's Ditch Cooperative Company, Inc., a bottling company, will expand its facility in Cicero, Onondaga County. The expansion will include more warehouse space, a new road loop, building a new truck repair facility, and building improvements.	\$2,725,000	X	7/31/2023
ESD Grants	Central New York	124660	Onondaga	Studio Central Post Production LLC	Studio Central Post Production Facility	Studio Central Post Production LLC will establish a postproduction facility in Syracuse, Onondaga County. The project involves the purchase of the building, buildout of the interior space, the purchase and installation of technical postproduction equipment, design costs, and furniture to outfit the offices and studio area. The new facility will provide film editing, sound design, mixing, color correction, and other postproduction services for film and television.	\$150,000		7/31/2023
ESD Grants	Central New York	125154	Onondaga	Feldmeier Equipment, Inc.	Feldmeier Expansion of Syracuse Manufacturing Facility	Feldmeier Equipment, a manufacturer of tanks, vessels, agitators and specially equipment will expand its manufacturing processes, including its automated equipment lines to enable the development of new products. The company will add additional production space, and purchase and install machinery and equipment. The new product lines will focus on aseptic techniques and products, a new focus for many key providers in the dairy industry. The new facility will also be equipped to manufacture larger vessels than Feldmeier is currently able to produce, thereby increasing its product offerings.	\$500,000	X	7/31/2023
ESD Grants	Central New York	125487	Onondaga	MercyWorks, Inc.	1221 South Salina Street	MercyWorks, Inc. is a non-profit whose mission is to deliver STEAM oriented programming and career pathways for youths, undergraduates and under-served populations. MercyWorks, inc. will make improvements to its facility in Syracuse, Onondaga County. The project includes the demolition of an adjacent blighted building, parking lot improvements, and various renovation to the building. The new facility will enhance the company's ability to provide quality professional work experiences for students, financial literacy training, mentorships and development of college and career ready skills for the community.	\$500,000	X	7/31/2023
ESD Grants	Finger Lakes	125910	Genesee	Enercon Systems Inc.	Establishment of a Cleantech Manufacturing Facility	Enercon Systems is a manufacturer of sustainable climate-friendly technologies that solve real environmental problems as well as R&D prototypes that take waste and transform it into energy. Their mobile waste disposal systems are typically used in remote locations where traditional systems/infrastructure are not available. Enercon, currently headquartered in Ohio, will renovate and purchase machinery and equipment to establish NY operations in a vacant building located on a gateway corridor to the City of Batavia.	\$100,000	X	7/31/2023
ESD EJP	Finger Lakes	125910	Genesee	Enercon Systems Inc.	Establishment of a Cleantech Manufacturing Facility	Enercon Systems is a manufacturer of sustainable climate-friendly technologies that solve real environmental problems as well as R&D prototypes that take waste and transform it into energy. Their mobile waste disposal systems are typically used in remote locations where traditional systems/infrastructure are not available. Enercon, currently headquartered in Ohio, will renovate and purchase machinery and equipment to establish NY operations in a vacant building located on a gateway corridor to the City of Batavia.	\$180,000		7/31/2023
ESD Grants	Finger Lakes	125537	Livingston	York Milling & Grain, LLC	York Milling Soybean Crush	York Milling & Grain, LLC will establish a facility in Livingston County that will produce soybean meal and oil by renovating their recently purchased property and purchasing and installing the required machinery and equipment. York Milling & Grain will source soybeans from Western New York growers and sell processed soybean meal and soy oil to feed mills in the area. The extruding facility will also give growers in the area a local option for processing.	\$225,000	X	7/31/2023
ESD Grants	Finger Lakes	124944	Monroe	Foodlink, Inc.	Foodlink Expansion 2023	Foodlink, a regional food bank and public health organization serving a 10-county area in the Finger Lakes will renovate their facility to improve operational efficiencies. They will purchase machinery and equipment, as well as furniture, fixtures, and equipment to support operations. Project investments will increase capacity and allow Foodlink to serve more food-insecure individuals and allow the expansion of a NYS Certified culinary apprenticeship program.	\$685,000	X	7/31/2023
ESD Grants	Finger Lakes	125411	Monroe	Linton Crystal Technologies	LCT Pilot Line	Linton Crystal Technologies, a semiconductor manufacturer, will purchase a new facility and expand operations. The new facility will allow Linton Crystal Technologies to increase research and development of solar wafer processing equipment and establish a solar wafer pilot line to bring the manufacturing part of their business into NYS to join their current R&D operations.	\$450,000	X	7/31/2023
ESD EJP	Finger Lakes	125411	Monroe	Linton Crystal Technologies	LCT Pilot Line	Linton Crystal Technologies, a semiconductor manufacturer, will purchase a new facility and expand operations. The new facility will allow Linton Crystal Technologies to increase research and development of solar wafer processing equipment and establish a solar wafer pilot line to bring the manufacturing part of their business into NYS to join their current R&D operations.	\$450,000		7/31/2023
ESD Grants	Finger Lakes	125460	Wayne	Chrisantha, Inc.	Newark Canal Front Hotel and Conference Center	Chrisantha will build a new hotel and conference center in the Village of Newark. They will acquire of a vacant parcel to construct and operate the new facility as a full-service hotel with an attached conference/banquet center, and construct a parking lot to be shared with a new municipal building.	\$1,000,000	X	7/31/2023

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
ESD Grants	Finger Lakes	125964	Wayne	Cahoon Farms Incorporated	CFI Applesauce	Cahoon Farms located in Wolcott, Wayne County, currently processes fresh and frozen IQF (individually quick frozen) apples and IQF cherries, apple concentrate, single strength juice and unpasteurized single strength juice. They will renovate their facility and acquire new production machinery and equipment to establish an applesauce line. The additional production line will create new jobs and provide an indirect benefit to the apple producers in NYS providing them with an additional outlet for their supply, much of which is currently processed out of state.	\$400,000	X	7/31/2023
ESD EJP	Finger Lakes	125964	Wayne	Cahoon Farms Incorporated	CFI Applesauce	Cahoon Farms located in Wolcott, Wayne County, currently processes fresh and frozen IQF (individually quick frozen) apples and IQF cherries, apple concentrate, single strength juice and unpasteurized single strength juice. They will renovate their facility and acquire new production machinery and equipment to establish an applesauce line. The additional production line will create new jobs and provide an indirect benefit to the apple producers in NYS providing them with an additional outlet for their supply, much of which is currently processed out of state.	\$300,000		7/31/2023
ESD Grants	Long Island	122731	Suffolk	Red Ironworks Inc.	Rear Canopy and Gantry	Red Ironworks Inc. will expand their current steel fabrication facility in West Babylon and invest in new machinery and equipment to produce steel for use in the offshore wind sector.	\$70,000	X	7/31/2023
ESD Grants	Long Island	126647	Suffolk	Visual Citi Inc.	Visual Citi Expansion	Visual Citi, located in Lindenhurst, Suffolk County, produces signage and visual props, digital graphics, dimensional lettering and illuminated displays for several high-end fashion companies. Visual Citi Inc. is will renovate and reconfigure their existing facility to expand their manufacturing space, accommodate new machinery and equipment and add new jobs.	\$250,000	X	7/31/2023
ESD EJP	Long Island	126647	Suffolk	Visual Citi Inc.	Visual Citi Expansion	Visual Citi, located in Lindenhurst, Suffolk County, produces signage and visual props, digital graphics, dimensional lettering and illuminated displays for several high-end fashion companies. Visual Citi Inc. is will renovate and reconfigure their existing facility to expand their manufacturing space, accommodate new machinery and equipment and add new jobs.	\$500,000		7/31/2023
ESD Grants	Mid-Hudson	125862	Dutchess	Obercreek Brewing Company LLC	Obercreek Farmstead Development Project	Obercreek Farmstead is a fifth generation organic farm in the Hudson Valley. The Obercreek Brewing Company is their latest expansion, opening in 2016, using hops grown on the farmstead. This expansion will develop a tasting room and expand their manufacturing space, granting the public greater access to their award winning brews. Located less than a mile from the New Hamburg train station, this expansion will transform Obercreek Farmstead into a destination for agro-tourists and locals alike.	\$300,000		7/31/2023
ESD Grants	Mid-Hudson	105406	Orange	UAP North America LTD	UAP Production Expansion Project	UAP, a global brand in sculpture and industrial art manufacturing, will expand its operations and capabilities through purchasing advanced machinery, building renovations and hiring additional staff. UAP works with globally renowned artists, displaying sculptures produced in the Hudson Valley in public spaces around the world. In addition, UAP's School of Making, artist residency and internship programs connect UAP directly with the local community.	\$175,000	X	7/31/2023
ESD Grants	Mid-Hudson	122907	Orange	Spirits Lab Distilling Co., LLC	Spirits Lab Expansion	Spirit Lab Distillery's renovation of the long vacant Palatia Winery in Highland Mills allows the successful Newburgh based company to expand its manufacturing capabilities and bring its award winning spirits and canned cocktails to a wider audience. Spirit Lab Distillery intends to grow and harvest many ingredients for their cocktails on the 32 acre farm, keeping production local.	\$400,000		7/31/2023
ESD Grants	Mid-Hudson	125394	Orange	Chester Agricultural Center, Inc.	Chester Agricultural Centers Sustainable Community Farmland Farmer Housing	Chester Agricultural Center is a Not-For-Profit that works directly with small farmers. Leasing land and providing housing to small farmers, Chester Agricultural Center provides invaluable support and guidance to new and training farmers. The addition of an event space and farm stand will allow Chester Agricultural center to add to the growing Agro-tourism industry as well as provide a new revenue stream to small New York farmers.	\$222,000		7/31/2023
ESD Grants	Mid-Hudson	125530	Ulster	BQ Farms Inc	BQ Farms	BQ Farms is a manufacturer of a solar popped non-gmo popcorn that is produced with all natural, gluten free and vegan ingredients. The company plans to expand its production capacity by relocating its operations into a larger space that will allow for anticipated growth. BQ Farms plans to continue to work with farms in the Hudson Valley to source corn in the region and from the co-founder's family farm in Minnesota.	\$173,000	X	7/31/2023
ESD Grants	Mid-Hudson	125621	Ulster	Committee for Catskill Resort Museum	Creation of the Borscht Belt Museum	The Committee for Catskill Resort Museum plans to transform a building in the Ellenville Downtown Historic District (Ulster County) into a one-of-a-kind cultural attraction that will celebrate the hundreds of hotels, bungalow colonies and boarding houses that flourished in Sullivan and Ulster counties in the late 19th century through the early 1980s. "The Borscht Belt Museum" will be housed in the former Ellenville National Bank building.	\$650,000		7/31/2023
ESD Grants	Mid-Hudson	125871	Ulster	Kween And Co	381 Vineyard Ave	Kween & Co., a manufacturer of oat butter, a novel allergen-free peanut butter alternative will relocate its manufacturing and business headquarters from Pennsylvania to a former vacant food manufacturing site in Highland, Ulster County. The purchase of the new property will allow the company to put the facility back into productive use as a food manufacturing site and to expand Kween & Co.'s capacity to increase production of its oat butter product to meet growing demand. The company will also invest in R&D to continue innovating new products.	\$420,000	X	7/31/2023
ESD EJP	Mid-Hudson	125871	Ulster	Kween And Co	381 Vineyard Ave	Kween & Co., a manufacturer of oat butter, a novel allergen-free peanut butter alternative will relocate its manufacturing and business headquarters from Pennsylvania to a former vacant food manufacturing site in Highland, Ulster County. The purchase of the new property will allow the company to put the facility back into productive use as a food manufacturing site and to expand Kween & Co.'s capacity to increase production of its oat butter product to meet growing demand. The company will also invest in R&D to continue innovating new products.	\$326,000		7/31/2023
ESD Grants	Mid-Hudson	125140	Westchester	Studio A Holdings LLC	Electric Owl Studios - Mid-Hudson Sustainable Film Studio	Electric Owl Studios will create a LEED gold-certified multimedia production studio in the Village of Hastings-On-Hudson that will include facilities to support the film, television, and gaming industries. The development will allow for the production of feature films and television series at the facility alongside post-production, animation, gaming, and industry tech development. In addition, Electric Owl Studios will partner with local schools to establish education and training opportunities for students and residents from the area.	\$1,500,000	X	7/31/2023
ESD Grants	Mohawk Valley	122786	Fulton	SAMCO MFG, Inc.	SAMCO Expansion	SAMCO MFG, Inc. will expand its glove and apparel manufacturing business at it's current location in Gloversville. The expansion will include the purchase of equipment to increase productivity and enable the business to broaden its production capabilities.	\$136,600	X	7/31/2023
ESD Grants	Mohawk Valley	124444	Herkimer	ELG Utica Alloys Holding Corporation	ELG Utica Alloys Business Consolidation and Expansion	ELG Utica Alloys Holding Corporations ("ELG") processes, sources and supplies high-performance alloys and metals for the customers in aerospace, oil & gas, power generation, and engineering. They currently have locations in both Frankfort and Herkimer. ELG will consolidate its operations to its Herkimer facility where it will acquire and renovate a vacant building located onsite and demolish a part of the same building. Moving operations from the Frankfort facility to the adjacent vacant building in Herkimer will improve operational efficiency, add additional storage space, and create new jobs.	\$600,000	X	7/31/2023

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
ESD Grants	Mohawk Valley	125609	Herkimer	Turbo Machined Products, LLC	Turbo 2023	Turbo Machined Products custom designs and manufactures turbine blades, vanes, impellers and blisks, including Joint Strike Fighter engine parts for the 6th generation fighter jet for the US military. They will purchase additional manufacturing equipment for their location in Frankfort, Herkimer County. Equipment includes 4 and 5 axis CNC Milling machines, and robotic-type Polishing/Finishing equipment. The equipment purchase will enable Turbo Machined Products to bring a heat processing step and non-destructive testing in house, currently being done outside of NYS.	\$180,000	X	7/31/2023
ESD Grants	Mohawk Valley	126015	Oneida	Delorio Foods, Inc.	Capacity Enhancement	Delorio Foods Inc. will enhance plant capacity by installing a new production line for their frozen food products and adding additional cold storage space. They will expand their existing footprint and increase their workforce to produce frozen food products which are exported both domestically and globally.	\$300,000	X	7/31/2023
ESD EJP	Mohawk Valley	126015	Oneida	Delorio Foods, Inc.	Capacity Enhancement	Delorio Foods Inc. will enhance plant capacity by installing a new production line for their frozen food products and adding additional cold storage space. They will expand their existing footprint and increase their workforce to produce frozen food products which are exported both domestically and globally.	\$400,000		7/31/2023
ESD Grants	Mohawk Valley	125476	Oneida	Stark Truss Company, Inc.	Rome Project	Stark Truss is a manufacturer and supplier of wood components for the construction industry with headquarters in Ohio. Stark Truss will construct a new manufacturing facility at the Griffiss Business & Technology Park in Rome, Oneida County solidifying their presence in the Mohawk Valley and increasing production capacity to grow their business and create new jobs.	\$100,000	X	7/31/2023
ESD EJP	Mohawk Valley	125476	Oneida	Stark Truss Company, Inc.	Rome Project	Stark Truss is a manufacturer and supplier of wood components for the construction industry with headquarters in Ohio. Stark Truss will construct a new manufacturing facility at the Griffiss Business & Technology Park in Rome, Oneida County solidifying their presence in the Mohawk Valley and increasing production capacity to grow their business and create new jobs.	\$200,000		7/31/2023
ESD Grants	New York City	125167	Kings	Brownsville Arts Owner LLC	Brownsville Arts Center	The Brownsville Arts Center (BAC) will transform a vacant Brownfield lot into a cultural hub which will house an art and media center, performance arts and music schools, and performance space. The cultural hub will anchor a 9-story mixed-use building that and provide over 250 units of affordable housing. BAC will provide a new home to four accomplished arts organizations—BRIC, Purelements, the Brooklyn Music School, and the Youth Design Center—all of whom emphasize affordable access to the arts. The cultural hub intends to be the first Passive House LEED Platinum Certified cultural institution in New York State.	\$2,000,000	X	7/31/2023
ESD Grants	New York City	125007	New York	The New York Immigration Coalition, Inc.	NYIC Acquisition Project	The New York Immigration Coalition will acquire a facility to establish a permanent presence in NYC for its operations and programming. The space will increase NYIC's capacity to promote immigration inclusion in NYC through expanded services, legal rights and community resource training, and increased collaboration with other community-based organizations serving the immigrant community. NYIC will also create a training institute for community-based organizations serving the immigrant community. The new space will serve as a hub with meeting and training rooms and a conference center for training and collaboration among its members.	\$1,500,000	X	7/31/2023
ESD Grants	New York City	123631	Queens	Crystal Window & Door Systems, Ltd.	Crystal Equipment Purchase	Crystal Window & Door Systems will purchase and install new equipment for its manufacturing facility in Queens. This equipment will boost its manufacturing capacity, increase production efficiencies, and provide new employment opportunities.	\$500,000	X	7/31/2023
ESD Grants	North Country	119536	Jefferson	The Treehouse Hourly Child Care, LLC	Purchase of Treehouse Childcare Center	Treehouse Hourly Childcare will purchase and renovate a building and expand its daycare services in Watertown, NY. Jefferson County has been identified as a "childcare desert" and demand far exceeds accessibility. The center has outgrown its current location, and this project ensures continued operation of the daycare and preservation of critical daycare slots.	\$170,000	X	7/31/2023
ESD Grants	North Country	125242	Jefferson	North American Tapes	North American Tapes - Facility Expansion/M&E Purchase	North American Tapes (NAT), a leading manufacturer of hockey tape located in Watertown, NY, will expand its existing manufacturing facility to accommodate the installation of new equipment that will increase production capacity and efficiency, as well as expand their product offerings into new markets. The expansion allows the company to meet current and future demand for their products as well as retaining jobs.	\$425,000		7/31/2023
ESD Grants	Western New York	125347	Chautauqua	Chautauqua Lake Hospitality LLC	The Hotel Lenhart	The Hotel Lenhart will be renovated into a 40-guest room hotel, with private bathrooms, restaurant, and banquet area that will serve as a year-round tourist destination attracting visitors to Bemus Point and Chautauqua County.	\$1,900,000	X	7/31/2023
ESD Grants	Western New York	125650	Chautauqua	Savarino Companies, LLC	Falconer Square	Savarino Companies, LLC will renovate two building into a new mixed-use development. The first building will have over 40 apartment units, residential common space, and commercial spaces on the first floor front. The second building, will be an attached residential townhome building. The proposed project also includes community green space, surface lot parking, dumpster areas, and a maintenance shed.	\$250,000	X	7/31/2023
ESD Grants	Western New York	121960	Erie	Wood and Brooks Properties, LLC	Wood Brooks Properties	Wood and Brooks Properties, LLC will convert the historic Wood & Brooks Piano Factory complex located in Buffalo, NY into a mixed use development including a ground floor small business incubator space and new apartments on the upper floors. The redevelopment consists of an existing six story building as well as an adjacent single-story building. The first-floor commercial space will be anchored by a Construction Trade Incubator.	\$1,000,000	X	7/31/2023
ESD Grants	Western New York	125409	Erie	Niagara University	Niagara University: Buffalo Niagara Medical Campus Site Establishment	Niagara University will establish a science research laboratory in the footprint of the Buffalo Niagara Medical Campus (BNMC) to support significant integration of research opportunities and STEM-focused workforce development of undergraduate students and with regional partner institutions in a more effective manner.	\$210,000	X	7/31/2023
ESD Grants	Western New York	125448	Erie	Rugo Holdings Inc.	Sacred Heart Church Revitalization	The revitalization of the former Sacred Heart Church in Buffalo will include both residential apartments and commercial offices. In addition to the office and residential uses, it will fill an unmet need for the development of an event space for the community in this neighborhood in Buffalo.	\$800,000	X	7/31/2023
ESD Grants	Western New York	125776	Erie	Oerlikon	Oerlikon Metco Amherst Expansion	Located in Amherst, Oerlikon Balzers, is a world-leading technology brand of Oerlikon for thin-film coatings of semi-conductor wafers. They will acquire and install a new machinery line to expand the capabilities of the coatings for military applications where the wafers/machinery are being utilized under high stress and in multiple, challenging environments. Oerlikon will also use this new machinery to improve the coatings in the manufacturing of vacuum pumps, medical surgical tools, transportation (auto/air), energy storage/generation, and consumer goods like showerheads.	\$245,000	X	7/31/2023
ESD Grants	Western New York	125328	Niagara	Community Services for Every1, Inc.	The Nest	Community Services for Every1 (CSE1) will demolish and construct a new 6-story mixed-income, mixed-use building in Niagara Falls. Upon completion, the project will house 78 workforce apartments (mix of studio, one and two bedroom) and ground-floor commercial space. The commercial space will be utilized by CSE1 to provide job readiness and workforce development services to Niagara County residents with disabilities and their families. Services delivered will include Prevocational Services, Individualized Supported Employment/Workforce Development Services, and Community Habilitation Services. The project will also incorporate high Energy Efficiency and Green Building Design standards.	\$320,000	X	7/31/2023

The objective is to create an accessible, connected, and resilient community.	\$450,000	X	12/29/2022
DOS BOA	Long Island	120173	Suffolk	Town of Riverhead	Town of Riverhead Riverfront Park and Adaptive Children's Playground	The Town of Riverhead intends to complete BOA predevelopment activities to improve the riverfront parking area and develop Riverfront Park and Adaptive Playground. This park will address climate change-associated flooding and provide public gathering and event space, while protecting the Town Square. The project will provide healthy and safe activity to children of all abilities and will allow a central gathering space as part of the new Town Square to bolster Riverhead's economic development.	\$200,000	X	12/29/2022
DOS BOA	Long Island	120612	Suffolk	Town of Riverhead	Town of Riverhead Downtown Riverfront Amphitheater	The Town of Riverhead intends to complete BOA predevelopment activities for the planning, design and engineering of an amphitheater along the Peconic River and adjacent to the planned town square project. The amphitheater will create performance space and address flood mitigation for downtown. The venue will increase activity and tourism on the riverfront and further the economic revitalization of downtown Riverhead.	\$200,000	X	12/29/2022
DOS BOA	Mid-Hudson	119009	Ulster	City of Kingston	City of Kingston Midtown Brownfield Opportunity Area Plan	The City of Kingston, in conjunction with Hudson Valley Pattern for Progress, intends to develop a BOA Plan for a 250-acre, formerly industrial area, in the Midtown neighborhood of Kingston. The goal is to develop a plan that coordinates reuse and cleanup of brownfields and other vacant sites, spurs investment, provides needed housing and economic opportunities, and connects the neighborhood internally and to other parts of the city via an urban trail system.	\$238,559		12/29/2022
DOS BOA	Mohawk Valley	121539	Herkimer	Village of Herkimer	Village of Herkimer Brownfield Opportunity Area Plan	The Village of Herkimer intends to complete a BOA plan for a 32-acre area along its Main Street corridor. Challenges to be addressed include blight, safety, and aesthetics of structures, a weak economy and low employment, and poor community engagement. Objectives to be achieved include determining the best use for blighted/potential brownfield areas, identifying public/private partnership opportunities, expansion of economic activity and affordable housing, and increased community engagement.	\$173,250	X	12/29/2022
DOS BOA	Mohawk Valley	117894	Montgomery	City of Amsterdam	City of Amsterdam Phase II Environmental Site Assessments	The City of Amsterdam intends to conduct Phase II Environmental Site Assessments (ESAs) on four strategic sites identified in its Northern Neighborhoods and East End BOA Nominations: Five Corners Site, DeGraff Site, Papermill Site, and the Front Street Site. Sites were selected based on their potential to catalyze additional community revitalization. Phase II ESAs will allow the City to proceed with redevelopment activities on the four target sites.	\$300,000	X	12/29/2022
DOS BOA	Mohawk Valley	120073	Oneida	City of Rome	City of Rome Former Columbus School Reuse Feasibility Analysis	The City of Rome intends to complete BOA predevelopment activities for a building conditions assessment and financial feasibility study for the potential reuse and redevelopment of the abandoned former Columbus School site within the Downtown Rome BOA. The site is an abandoned former school building located on 2.8 acres. The structural and environmental conditions of the property are unknown and require a formal investigation to evaluate the reuse potential of the building.	\$112,500	X	12/29/2022
DOS BOA	Mohawk Valley	120080	Oneida	City of Rome	City of Rome Muck Road Boat Launch Design	The City of Rome intends to complete BOA predevelopment activities inclusive of planning, design, permitting, and the development of bid documents to improve the accessibility and quality of the Muck Road Boat Launch in the Erie Boulevard BOA. The project will address improvements such as ADA compliance, parking, green infrastructure, walkways, bikeways, fishing platforms, boat launch ramp, lighting, driveways, signage, buildings, and landscaping.	\$180,000		12/29/2022
DOS BOA	Mohawk Valley	120099	Oneida	City of Rome	City of Rome Muck Road Empire State Canalway Trail Extension Planning & Design	The City of Rome intends to complete BOA predevelopment activities along Muck Road within the Erie Boulevard BOA. The project involves the planning and design for the extension of the Empire State/Canalway Trail along Muck Road through the public ROW and State-owned lands fronting the Barge Canal. Project tasks include designing stormwater collection and treatment facilities, designing an AASHTO-compliant recreational facility, and incorporating complete streets principles into the trail design.	\$135,000	X	12/29/2022
DOS BOA	Mohawk Valley	119597	Otsego	City of Oneonta	City of Oneonta Brownfield Opportunity Area Plan	The City of Oneonta intends to complete a BOA Plan for its railroad corridor, the spine of the City's historically industrial area. The study area includes approximately 670.5 acres. The study area has a long history associated with the rail industry leaving several vacant and underutilized sites within the heart of the city. The BOA Plan intends to address the physical and perceived blight and identify a path forward for the revitalization of its industrial neighborhoods.	\$297,000	X	12/29/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
DOS BOA	New York City	119157	Bronx	Youth Ministries for Peace and Justice, Inc.	Bronx-Southern Boulevard Brownfield Opportunity Area Plan	Youth Ministries for Peace and Justice Inc. (YMPJ) intends to complete a BOA Plan for the proposed Southern Blvd BOA in the Bronx. The BOA is located on the west shore of the Bronx River between Starlight Park and Westchester Avenue and the east shore from Westchester Avenue south ending at Soundview Park. The area is defined by many physical barriers, including the Sheridan Expressway, an elevated train line, the Cass Gilbert Train Station, vacant lots, and an irregular street grid.	\$500,000		12/29/2022
DOS BOA	North Country	120530	St. Lawrence	Village of Massena	Village of Massena Brownfield Opportunity Area Plan	The Village of Massena intends to complete a BOA Plan for a 245-acre area in the village, including waterfront property, the Commercial Business and Transition Districts and the Commercial Auto-Related District. Economic development objectives include Main Street and river access improvements, increased pedestrian connectivity and expanded opportunity for mixed-use and public use redevelopment to enhance placemaking and increased quality of life to support small business, residents and visitors.	\$200,000	X	12/29/2022
DOS BOA	Western New York	119333	Erie	Town of Eden	Town of Eden Brownfield Opportunity Area Plan	The Town of Eden intends to complete a BOA Plan for an 83-acre area in the southwestern portion of the hamlet of Eden Center where the town's core business district is located. The area is characterized by an operating rail line, active industrial and commercial businesses, single-family homes, vacant and underutilized properties, and brownfield sites. The objective is to remediate contaminated land, create new housing and economic opportunities, and support placemaking.	\$90,000	X	12/29/2022
DOS BOA	Western New York	119773	Erie	Village of Hamburg	Village of Hamburg West End Corridor Brownfield Opportunity Area Plan	The Village of Hamburg intends to complete a BOA Plan for an approximately 200-acre area in the western part of the village. The area contains an operating rail line, active industrial and commercial corridors, residential streets, a mix of historic and conventional development, vacant and underutilized sites, and brownfields. The objective is to revitalize the neighborhood, increase tax revenues, remediate contaminated sites, foster economic development, and improve the quality of life.	\$200,000	X	12/29/2022
DOS BOA	Western New York	119970	Erie	Buffalo Urban Development Corporation	City of Buffalo Northland Corridor Brownfield Opportunity Area Plan	The Buffalo Urban Development Corporation intends to complete a BOA Plan for an area on Buffalo's east side for the Northland Corridor Beltline. The area includes sections of the Delavan Grider, Lovejoy and Fillmore District neighborhoods, with a mix of industrial, commercial and residential uses including various brownfield sites. The objective is to create opportunities for new and existing businesses, increase workforce training, incorporate green infrastructure, and create affordable housing.	\$87,750	X	12/29/2022
DOS LWRP	Capital Region	119478	Warren	Town of Bolton	Veterans Memorial Park Improvements Phase 2	The Town of Bolton will advance their Local Waterfront Revitalization Program by designing and constructing the second phase of the Veterans Memorial Park Master Plan. Improvements include a new multi-use waterfront recreation building which will house visitor information services and accommodate special events throughout the year, pedestrian access connections into the park, and stormwater management improvements for continued water quality protection of Lake George.	\$1,725,000	X	12/29/2022
DOS LWRP	Central New York	118603	Cayuga	Cayuga County	Cayuga Lake Blueway Trail Implementation Phase 2	Cayuga County, in partnership with the Village of Union Springs, will continue to implement recommendations from the Cayuga Lake Blueway Trail Plan and the Village's Local Waterfront Revitalization Program to expand public access, increase tourism and support economic development. This project will install an ADA-compliant kayak launch in Frontenac Park and publish Cayuga Lake Scenic Byway Paddling Pocket Guidebooks.	\$63,045	X	12/29/2022
DOS LWRP	Central New York	118606	Cayuga	Cayuga County	Sterling-Fair Haven Community Connection Trail Feasibility Study	Cayuga County, in partnership with the Town of Sterling and Village of Fair Haven, will prepare a feasibility study for a pedestrian and bicycle trail along the west side of Little Sodus Bay connecting West Barrier Bar Park to Main Street and Fair Haven Beach State Park. The Sterling-Fair Haven Community Connection Trail Feasibility Study will determine the final layout of the trail, identify permitting and easement requirements, and develop construction cost estimates.	\$103,807	X	12/29/2022
DOS LWRP	Central New York	120589	Madison	Village of Cazenovia	Chittenango Creek Restoration Preliminary Design	The Village of Cazenovia will prepare preliminary design and permitting for the partial removal of the Mill Street dam and Chittenango Creek restoration to return the creek to its natural state and eliminate harmful back flow of nutrients and pollutants into Cazenovia Lake. This project advances the Village's Local Waterfront Revitalization Program goals of improving water quality and restoring fish habitat to support tourism and recreation.	\$64,875	X	12/29/2022
DOS LWRP	Central New York	120451	Onondaga	City of Syracuse	Inner Harbor Park Restoration Design	The City of Syracuse will begin to implement its Local Waterfront Revitalization Program currently under development by preparing designs for improvements to Inner Harbor Park along Onondaga Creek. The redesign of the park will include additional recreation opportunities, pedestrian and bicycle connections, and safety improvements. These enhancements to the public waterfront will compliment recent mixed use development and promote additional investment in the Inner Harbor.	\$160,000	X	12/29/2022
DOS LWRP	Central New York	120643	Onondaga	Town of Geddes	Town of Geddes Local Waterfront Revitalization Program	The Town of Geddes will prepare a Local Waterfront Revitalization Program (LWRP) that will express the Town's vision for the best use of its Onondaga Lake and the Seneca River waterfronts. The LWRP will build upon recent and planned investments to improve public waterfront access and usability, increase recreational resources and amenities, spur economic development, and protect the environment.	\$75,000	X	12/29/2022
DOS LWRP	Central New York	118173	Oswego	Town of Granby	Town of Granby Local Waterfront Revitalization Program	The Town of Granby will develop a Local Waterfront Revitalization Program (LWRP) for its waterfront along the Oswego River, Lake Neatahwanta, and its tributaries. The LWRP will guide development of abandoned, deteriorated, and underutilized sites, improve community resiliency, enhance access to the waterfront, encourage development of recreation and tourist attractions, and improve water quality.	\$187,229	X	12/29/2022
DOS LWRP	Finger Lakes	117717	Monroe	City of Rochester	ROC City Skate Park Expansion	The City of Rochester will expand the ROC City Skate Park along its Genesee River waterfront including an additional 11,200 square feet of skate area with a focus on features for beginning skaters, public restrooms, an event space, and associated site improvements. The project will implement the City's Local Waterfront Revitalization Program by activating an underutilized area along the riverfront and transforming it into a recreational facility and downtown destination.	\$3,000,000	X	12/29/2022
DOS LWRP	Finger Lakes	118577	Seneca	Town of Seneca Falls	Town of Seneca Falls Local Waterfront Revitalization Program	The Town of Seneca Falls will develop a Local Waterfront Revitalization Program that will establish a community vision for its Cayuga-Seneca Canal waterfront, downtown, and adjacent neighborhoods. The Town, public, and local community groups will work together to guide future growth and development, enhance waterfront access, revitalize the downtown, improve canal-related tourism, and celebrate the Town's canal and historical heritage.	\$58,875	X	12/29/2022
DOS LWRP	Finger Lakes	120461	Wyoming	Wyoming County	Silver Lake Local Waterfront Revitalization Programs	Wyoming County will assist the Towns of Castile and Perry and the Village of Perry to develop Local Waterfront Revitalization Programs (LWRP) for their Silver Lake waterfront. The LWRPs will identify opportunities to enhance natural and cultural resources, promote tourism in the region, further infrastructure improvements, enhance public access to outdoor recreation activities, protect the Silver Lake Outlet Wildlife Management Area, and advance significant economic development projects.	\$148,750	X	12/29/2022
DOS LWRP	Long Island	117991	Suffolk	Village of Patchogue	Shorefront Park Boardwalk and Stormwater Improvements Construction	The Village of Patchogue will construct improvements at Shorefront Park along the Great South Bay including a boardwalk, pedestrian bridges, and stormwater management practices. This project complements the planned living shoreline at the park and will further expand public access and improve water quality.	\$3,000,000	X	12/29/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
DOS LWRP	Long Island	118391	Suffolk	Town of Southold	Southold Prosperity II - Land Use and Zoning Updates	The Town of Southold will analyze and update land use and zoning regulations to implement the community vision set forth in their Local Waterfront Revitalization Program and Comprehensive Plan. The updates will ensure future growth is sustainable and the regional economic drivers of agriculture, tourism, working waterfronts, and natural resources are protected, while maintaining a strong and healthy local economy.	\$338,000	X	12/29/2022
DOS LWRP	Long Island	120943	Suffolk	Village of Sag Harbor	Havens Beach Stormwater Watershed Delineation/Conveyance Analysis and Park Use Assessment	The Village of Sag Harbor will implement its Local Waterfront Revitalization Program by completing a study to address ongoing water quality concerns in the Peconic Estuary and support public access to Havens Beach. The study will conduct a watershed analysis for Havens Beach to identify stormwater infrastructure improvements and a park use assessment to provide recommendations for balancing community and public works uses in the park.	\$66,171		12/29/2022
DOS LWRP	Mid-Hudson	120127	Westchester	City of Peekskill	Construction of Fleischmann Pier and Charles Point Park Improvements	The City of Peekskill will construct additional improvements for Fleischmann Pier and Charles Point Park including installation of decking inlay, concession area, outdoor activity space, shade structure, bus drop-off area and pier stairs. These improvements will advance the City's Local Waterfront Revitalization Program by continuing to promote public access to the City's Hudson River waterfront.	\$583,293	X	12/29/2022
DOS LWRP	New York City	119575	Bronx, Kings, New York, Queens, Richmond	New York City Department of City Planning	NYC Waterfront Public Access - A Look Back and a Look Ahead	The New York City Department of City Planning will conduct a study of existing waterfront public access areas to identify opportunities to foster climate resiliency. The study will invite innovation in the design of new waterfront open spaces and help expand access to communities without access to the waterfront.	\$453,000		12/29/2022
DOS LWRP	New York City	119596	Richmond	New York City Department of Parks and Recreation	Mariners Marsh Park Improvements Phase 1	New York City (NYC) Department of Parks & Recreation will advance the goals the NYC Waterfront Revitalization Program by initiating the first phase of improvements for Mariners Marsh Park, located on the northwest shore of Staten Island along the Kill Van Kull. The project will include developing designs for park trails and coastal habitat restoration and will also complete rehabilitation of a portion of the existing inaccessible trail network to provide immediate safe access to the park.	\$1,144,103	X	12/29/2022
DOS LWRP	North Country	120324	Jefferson	Village of Sackets Harbor	Waterfront Resiliency and Accessibility Improvements Construction	The Village of Sackets Harbor will complete construction of priority projects recommended by the Village's Local Waterfront Revitalization Program currently under development and the Lake Ontario Resiliency and Economic Development Initiative to improve resiliency and accessibility to Lake Ontario. Improvements include new transient boater docks and an ADA kayak launch at Market Square Park, creation of three new waterfront parks with recreational amenities, and two new public parking lots.	\$676,554	X	12/29/2022
DOS LWRP	Southern Tier	119013	Broome	Broome County	Grippen Park and Chugnut Trail Waterfront Improvements	Broome County will construct significant upgrades to Grippen Park's facilities and extend the Chugnut Trail along the Susquehanna River in the Village of Endicott. Improvements include a multi-use recreational building, an accessible playground, amenities such as seating, bike racks, and wayfinding signage, resurfaced trailhead parking, and a paved trail that links to local neighborhoods, businesses, and the regional trail system.	\$2,613,820	X	12/29/2022
DOS LWRP	Southern Tier	120373	Delaware	Village of Sidney	GreenPlain Community Park	The Village of Sidney will design and construct the recreational amenities including a green soccer complex and event lawn as part of the GreenPlain Community Park adjacent to the Susquehanna River. This project implements the goals of the Village's Local Waterfront Revitalization Program and Envisioning Sidney's Resilient Riverfront Plan by conserving waterfront lands for public amenities that can safely flood while still meeting community needs for resilient recreation.	\$700,000	X	12/29/2022
DOS LWRP	Western New York	117829	Chautauqua	Chautauqua County	Coastal Local Waterfront Revitalization Programs within Chautauqua County	Chautauqua County will assist the coastal Towns of Hanover, Sheridan, Dunkirk, Pomfret, Portland, Westfield and Ripley, the Villages of Silver Creek and Westfield, and City of Dunkirk to prepare and adopt Local Waterfront Revitalization Programs (LWRPs) and supporting local regulations. The LWRPs will promote the State's coastal policies along Lake Erie and guide future economic development and preservation of natural and cultural resources, and expand public access along the shoreline.	\$193,500	X	12/29/2022
DOS LWRP	Western New York	118260	Chautauqua	Village of Mayville	Lakeside Park Improvements	The Village of Mayville will design and construct improvements at Lakeside Park along Chautauqua Lake including Chautauqua Belle gateway enhancements, a new kayak/canoe launch, and a waterfront multi-use trail. This project will implement the Chautauqua Lake Local Waterfront Revitalization Program goals to improve public access, expand recreational opportunities, and attract residents and visitors to downtown Mayville.	\$675,000	X	12/29/2022
DOS LWRP	Western New York	119231	Niagara	City of Lockport	City of Lockport Local Waterfront Revitalization Program	The City of Lockport will create a Local Waterfront Revitalization Program (LWRP) which reflects the community's vision for its Erie Canal and Eighteenmile Creek waterfronts and protects the historic integrity of its unique downtown character. The LWRP will guide redevelopment of underutilized waterfront properties, enhance historic and cultural resources, expand public spaces and access to recreational amenities, grow tourism, and address sustainability and transportation needs.	\$85,000	X	12/29/2022
DOS LWRP UCR	Capital Region	119867	Rensselaer	Town of Schodack	Town of Schodack and Village of Castleton-on-Hudson Local Waterfront Revitalization Update	The Town of Schodack and Village of Castleton-on-Hudson will update their 1995 joint Local Waterfront Revitalization Program to guide land and water uses along the Hudson River and its tributaries. The update will address public access to their waterfront, boost the economic vitality, provide recreational opportunities and identify resiliency strategies which safeguard waterfront parks and community assets.	\$75,000	X	12/29/2022
DOS LWRP UCR	Mid-Hudson	119402	Westchester	Village of Ossining	Village of Ossining Local Waterfront Revitalization Program Update	The Village of Ossining, located on the Hudson River, will update its Local Waterfront Revitalization Program to incorporate recent planning initiatives including the 2021 Comprehensive Plan and 2022 Downtown Revitalization Initiative Strategic Investment Plan. The update will address community resiliency, climate adaptation, smart growth, and will include a harbor management plan.	\$106,250	X	12/29/2022
DOS LWRP UCR	Western New York	119096	Niagara	City of North Tonawanda	City of North Tonawanda Local Waterfront Revitalization Program Update	The City of North Tonawanda will update its Local Waterfront Revitalization Program to guide appropriate land and water uses along its Niagara River and Erie Canal/Tonawanda Creek waterfronts. The update will expand the waterfront boundary, spur revitalization of underutilized areas in the downtown, improve public access, coordinate parks and tourism planning, address flood resiliency and shoreline stability, and identify waterfront improvements that address local and regional needs.	\$130,000	X	12/29/2022
ESD BIHS	Capital Region	117735	Albany	The Research Foundation for The State University of New York (SUNY), University at Albany	Innovate 518 The Capital Region Innovation Hot Spot	The mission of Innovate 518, the Capital Region Innovation Hot Spot is a collaborative effort of business incubators expanding entrepreneurial services, help startups, and support economic development in the Capital Region of New York. Led by the University at Albany, Innovate 518 connects startups to UAlbany's vast resources, including student talent, faculty expertise, entrepreneurial support programs, and world class facilities. Innovate 518 Affiliated Partner network provides opportunities for participation in NSF I-Corps entrepreneurship training through the New York I-Corps Hub. By accepting referrals from Affiliated Partner incubator programs, startups may be considered for Innovation Hot Spot consideration and STARTUP NY certification at a University at Albany approved location. Like the Next-Tech Strategy approach, focus will be providing resources to help develop cutting edge ideas in priority industry clusters for commercialization: Advanced manufacturing, life sciences, cleantech, advanced analytics, cybersecurity, and AI. The goal of Innovate 518 encompasses building robust workforce development, inclusive economic growth, and prosperity for the Capital Region.	\$1,250,000	X	12/13/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
ESD BIHS	Capital Region	117906	Rensselaer	Rensselaer Polytechnic Institute	NYS Certified Incubator	Rensselaer Polytechnic Institute had the 1st incubator on a college campus and launched numerous companies that remain in the region today. Multiple campus organizations have assisted startups through programming, project-based learning, and hardware development/prototyping in the absence of the original incubator. There is still a need to expand the services to companies at a stage later than that of initial prototype development and customer discovery. Building on the successful history of the RPI Incubator and restructuring it as a Troy-based partnership among Rensselaer Polytechnic Institute (RPI, lead), the Troy Innovation Garage (TIG, partner), and the Tech Valley Game Space (TVGS, partner) is a strategy for future success. A distributed program will provide workspaces, mentorship, education and access to investors. Existing and new programs will address the knowledge gaps assessed among client companies. We expect incubated clients to see the wealth of resources the Capital Region can provide their businesses and choose to retain close proximity to a rejuvenated local city in upstate New York creating more high-paying jobs and economic prosperity for our region.	\$625,000	X	12/13/2022
ESD BIHS	Long Island	120044	Suffolk	Accelerate Long Island	Long Island Innovation Hot Spot	Accelerate Long Island (ALI), a 501c(6) non-profit founded in 2011, is a unique collaboration among the region's research and academic institutions and business community to commercialize research and create an entrepreneurial ecosystem. ALI proposes to manage the Long Island Innovation Hot Spot, in collaboration with five co-applicants: the Broad Hollow Bioscience Park at Farmingdale State College (BHBP), Hofstra University, the Long Island High Technology Incubator (LIHTI), New York Institute of Technology, and Stony Brook University. ALI will build upon the successful Long Island Innovation Hot Spot managed by LIHTI for the past ten years, coordinating the Long Island region's network of entrepreneurship support programs, incubator space, and professional support services. The co-applicants will serve on an Advisory Board that will guide the implementation of the program, which will include coordinating the tax incentives through NYS, managing a centralized professional services support program, facilitating connections to the region's network of incubator space, fostering access to capital, and conducting outreach to a broad spectrum of important regional stakeholders.	\$1,250,000	X	12/13/2022
ESD BIHS	Mid-Hudson	118300	Dutchess	Hudson River Housing Inc.	Employment Assistance and Training Station (EATS)	Hudson River Housing is applying for designation as a New York State Business Incubator. Our intent is to enhance and expand the business incubation services currently centralized at our Poughkeepsie Underwear Factory location. We are seeing a rising demand for the spaces we have created for culinary, hospitality, textiles and arts production. In our five years of operation, we have assisted nearly 100 businesses to launch or grow, the majority of which have been start-up, BIPOC, immigrant and/or womxn-led. With this designation, we will expand our culinary incubation programs, enhance our business development support and training, and build upon that model to launch a new incubator program focused on fashion and textile production. To accomplish this we will add satellite locations for culinary incubation; add equipment and incubation support for companies working in the textile, fashion, and arts industries; and facilitate greater access to training and financial resources.	\$625,000		12/13/2022
ESD BIHS	Mid-Hudson	119869	Ulster	SUNY New Paltz	Hudson Valley Venture Hub Innovation Hot Spot	The SUNY New Paltz School of Business proposes formal designation of its on-campus business incubator as a regional NYS Innovation Hot Spot that administers a suite of development services for Mid-Hudson entrepreneurs. Since 2018, the Hudson Valley Venture Hub (HVVH) has served as the convener of the region's startup ecosystem – connecting innovators, producers, investors, and the education sector. To execute this vision, HVVH hosts quarterly industry and stakeholder gatherings; delivers a monthly newsletter of partnership initiatives to 2,000+ subscribers; oversees a pro bono mentorship program; and offers the business community no-cost physical meeting and work space. Yet, growing local demand for additional programming, mentorship, resources, and support often exceeds HVVH's current capacity. ESD funding will enable the expansion of these key incubation services to speed new venture growth by increasing the frequency of networking and affiliate events; recruiting more expert advisers; hosting larger pitch competitions with more impactful funding; streamlining partner referrals; and facilitating greater access to additive-manufacturing, prototyping, and design services.	\$1,250,000	X	12/13/2022
ESD BIHS	Mohawk Valley	117636	Oneida	Mohawk Valley Community College Foundation Inc.	thINCubator	MVCC's thINCubator is the Mohawk Valley's hub for entrepreneurship, providing new and existing entrepreneurs the services they need to transform ideas into businesses. It's the home of the Refinery accelerator program, the Small Business Development Center, and a network of mentors and experts to help each entrepreneur succeed. thINC's programming, workshops, mentor services, and facilities have served hundreds of entrepreneurs, helping create or accelerate startups as well as providing mentoring and assistance. As an accelerator, the thINCubator supports community and business events, workshops, networking nights and programs, attracting hundreds of makers, leaders, entrepreneurs, students, hackers, small-business organizations, commercialization specialists, angel investors and more. The thINCubator intensively builds the regional entrepreneurship ecosystem, and has forged partnerships with a wide range of other startup-support, economic and workforce development agencies to leverage each institution's strengths and ensure each startup can access a dynamic service package tailored to their unique needs.	\$1,250,000	X	12/13/2022
ESD BIHS	New York City	117010	New York	CUNY Innovation and Applied Research	NYC Innovation Hot Spot	The NYC Innovation Hot Spot (NYC IH), based at the CUNY iHub at 215 West 125th Street, operates out of the CUNY Central Research Office. It occupies 7,000 square feet and can house 25-30 companies. It guides companies through setting up a new business, developing a business concept, product, or service, identifying markets, and seeking funding. The iHub/IH has partnered with over 40 leading incubators in all five boroughs of NYC. The NYC IH's diverse team of program staff and business mentors are national leaders in technology innovation and entrepreneurial business development. They provide students, faculty, and the broader community with a structured entry point to access the NYC region's unique combination of world-class universities, venture capital, and one of the nation's fastest growing technology startup cultures. The viability of new ventures is explored through bootcamp-style cohorts modeled after the successful NSF I-Corps entrepreneurial training program, which prioritizes customer discovery in an iterative process that is constantly revising the potential product or offering. This intensive training enables startups to scale into sustainable businesses.	\$1,250,000	X	12/13/2022
ESD BIHS	Western New York	119291	Cattaraugus	Olean Business Development Corporation	OBDC-ESD NYS Business Incubators and Hotspots	As the OBDC mission continues, with an associated strategy of developing an entrepreneurial community in the Olean region to support new businesses, it has become apparent that, in addition to the continued generosity of local donors and income from building tenants and new program launches, secondary sources of support are required. Additional programming and resource capacity from achieving NYS Certified Business Incubator designation is paramount to the continued development and support of the ecosystem in the Olean region. Olean Business Development Corporation (OBDC) is a not-for-profit corporation formed in 2015 that owns a building located at 301 N Union Street in Olean, NY. The 1895 era building is four stories tall with approximately 20,000 sq ft of space. The mission of OBDC is to support business development in the greater Olean area, and as such, has overseen the incubation of several local new businesses utilizing the space that the building offers, two of which remain tenants in the building. One is Union Tea, an original OBDC incubator business started in 2016, and the second is Dan Jordan Photography, who moved into an incubator space in the OBDC building in 2019.	\$625,000	X	12/13/2022
ESD MNY	Capital Region	120870	Albany	Albany Symphony Orchestra, Inc.	Freedom Road NY Festival Tourism Working Capital	The Albany Symphony will utilize the tourism marketing funds to promote a new event the "Freedom Road NY Festival: A Celebration of Black History". This inclusive, free arts festival, with curated cultural heritage experiences and festive all-day events will draw thousands of visitors and residents alike, telling stories of brave New Yorkers who broke barriers and fought for racial justice.	\$100,000		11/30/2022

HCR NYMS	North Country	120232	St. Lawrence	Town of Hermon	Hermon Technical Assistance Project	The Town of Hermon will complete feasibility analysis and design work for buildings located at 106 and 108 Church Street in the hamlet of Hermon.	\$20,000		11/17/2022
HCR NYMS	Southern Tier	117927	Delaware	The MARK Project, Inc.	Fleischmanns Main Street	The MARK Project, Inc. will assist in the completion of a downtown assessment, design guidelines, and facade drawings for properties located in the Village of Fleischmanns.	\$20,000	X	11/17/2022
HCR NYMS	Western New York	117639	Chautauqua	Village of Sherman	Sherman Main Street Project	The Village of Sherman will assist in the renovation of commercial and mixed-use buildings in the historic downtown commercial core on East & West Main Street.	\$358,283		11/17/2022
HCR NYMS	Western New York	117632	Erie	Village of Springville	Revitalize Springville	The Village of Springville will assist in the renovation of commercial and mixed-use properties in the Village.	\$500,000		11/17/2022
HCR NYMS	Western New York	118845	Erie	Village of Angola	Angola Downtown Redevelopment Planning Project	The Village of Angola will conduct a Building Reuse Plan to identify development opportunities that are sustainable for vacant/underutilized commercial and mixed use properties in the Village business district.	\$20,000	X	11/17/2022
HCR NYMS	Western New York	119981	Niagara	Greater Lockport Development Corporation	Lockport Downtown Stabilization Project	The Greater Lockport Development Corporation will assist in the environmental remediation of the former Farmers & Mechanics building.	\$375,000		11/17/2022
NYSERDA CICC	Central New York	121681	Onondaga	Syracuse University	Chiller Electrification	Syracuse University will partner with CenTrio to modernize critical energy equipment, including the installation of highly efficient electrified chillers. This modernization effort will enable the University to achieve the targets of its Climate Action Plan, chiefly the goal of carbon neutrality by 2040.	\$1,412,875	X	12/28/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
NYSERDA CICC	Central New York	121744	Onondaga	Anheuser-Busch	AnheuserBusch Baldwinsville Brewery CO2 Capture System	Anheuser-Busch will install a carbon capture system to capture 75% of the CO2 emitted from their brewery in Baldwinsville New York. The captured CO2 will be recycled into the brewing process, eliminating a large portion of the CO2 the company would otherwise purchase from suppliers. This is a major opportunity Anheuser Busch to achieve resilient CO2 supply and take a huge step forward on their goal of Carbon Neutral Brewing.	\$5,000,000		12/28/2022
NYSERDA CICC	Finger Lakes	117329	Monroe	University of Rochester	Central Utility Plant Cooling Tower and Chiller Electrification	The University of Rochester is pursuing a comprehensive plan to upgrade Central Utility Plant (CUP) chillers from river water to a cooling tower and convert the chillers from steam-driven to electric-driven. The initial phase of this project will upgrade electrical systems to enable the installation of the new cooling towers and chillers. These projects will work to enable complete electrification of the chilled water system, and reduce the university's reliance on fossil fuels.	\$982,145	X	12/28/2022
NYSERDA CICC	Finger Lakes	117978	Monroe	REDRochester	Carbon Challenge II	RED-Rochester will pursue two projects to reduce greenhouse gas emissions in the Eastman Business Park: the installation of an ultra-efficient electric chiller to offset existing steam-driven chillers and the deployment of waste steam recovery technology to power a new air compressor. These projects will reduce industrial thermal loads through electrification and then capture waste heat to subsequently decrease process electric loads, resulting in substantial reduction of fossil fuel consumption.	\$5,000,000	X	12/28/2022
NYSERDA CICC	Mid-Hudson	120187	Dutchess	GlobalFoundries	Onsemi East Fishkill CO2e Reduction Projects	GlobalFoundries will pursue three projects to reduce greenhouse gas emissions at their semiconductor manufacturing site in East Fishkill, NY, including a transition to process refrigerants with significantly lower Global Warming Potential (GWP). Many widely used industrial refrigerants are very potent greenhouse gases. Finding and transitioning to refrigerants with lower GWP will be critical to decarbonizing New York's Industrial sector and meeting the goals of the Climate Act.	\$1,070,000		12/28/2022
NYSERDA CICC	New York City	121075	New York	Vornado	1 Park Avenue - Carbon Challenge	Vornado will pursue multiple efficiency and electrification projects in their building at One Park Avenue. They will replace two No. 2 fuel oil boilers with air to water heat pumps on the roof, install hot water fan powered boxes, upgrade the building envelope with additional wall insulation, and add window inserts to the building's exterior to reduce the infiltration, heating, and cooling loads on the building. Through increased efficiency of both the heating and cooling systems, a reduction of building load and removal of fossil fuels from the system, One Park Avenue will be able to drastically reduce its carbon emissions.	\$546,640		12/28/2022
NYSERDA CICC	Southern Tier	121033	Tompkins	Cornell University	Cornell Carbon Challenge	Cornell University's project will capture and reuse heat that would otherwise be waste and upgrade existing pneumatic building control systems with digital automated logic controls in existing buildings on the university's campus. Both initiatives will help increase energy efficiency and reduce the university's greenhouse gas footprint.	\$518,925	X	12/28/2022
NYSERDA CNED	Capital Region	120049	Albany	City of Cohoes	Historic Cohoes Music Hall Carbon Neutral Initiative	The City of Cohoes seeks to improve the energy performance of the historic Cohoes Music Hall building, and shift to clean energy sources. This Historic Cohoes Music Hall Carbon Neutral Initiative is a critical component of meeting the larger goal of reducing municipal energy costs city-wide and generating 100% of our municipal facilities' energy demand from renewable energy sources, enabled by the national model Cohoes Municipal Floating Solar project. Planning, design, and implementation funding for significant mechanical and building envelope upgrades will result in a highly energy-efficient, all-electric facility. This historic restoration project will replace natural gas burning equipment with ground source heat pumps and variable refrigerant flow systems, and dedicated outdoor air systems for ventilation, insulation, lighting, and other energy efficiency measures, allowing the building to be carbon neutral. The project, part of a comprehensive restoration of this regionally significant historic theater building, could become a model for other facilities, particularly those in designated disadvantaged communities like Cohoes for which these facilities are vital local and regional cultural and economic resources.	\$1,383,477	X	12/15/2022
NYSERDA CNED	Capital Region	116286	Columbia	Kites Nest	North Bay ReGeneration Project 2022	Kite's Nest, an educational center in Hudson, will relocate to a two-acre plot adjacent to the Hudson River. The construction of the new campus and building will serve as its permanent home and as a transformational neighborhood anchor that will bring people of all ages together for experiential education and workforce development, urban regenerative agriculture, and climate-conscious land stewardship. The new 4,500 sq/ft facility will include classrooms, arts/media production studios, a commercial kitchen/cafe, office space, and community partner space, plus a recently completed learning greenhouse. Campus features include an expanded community garden, outdoor kitchen, and publicly-accessible green space, with infrastructure for waterfront resiliency, climate mitigation/adaptation, and installed solar array to offset 100% of electric consumption and achieve carbon neutral performance with air source heat pumps for heating, cooling and hot water. The complete campus will enable essential education and employment programming and public events, engaging an estimated 25,000 visitors per year, and will support community-based, sustainable development in an undeveloped part of Hudson's waterfront district.	\$1,639,206	X	12/15/2022
NYSERDA CNED	Capital Region	119809	Greene	Catskill Mountain Foundation	Catskill Mountain Foundation Dance Studio Carbon Neutral Project	The Catskill Mountain Foundation Orpheum Performing Arts Center is an anchor destination for aesthetic, social engagement and creative economic development in the Village of Tannersville. As the sole performing arts and cultural destination at the heart of Main Street, the project is situated at the center of the Downtown Revitalization Initiative (DRI) boundary. This project includes the construction of a new building on the Orpheum property, across from the theater, including two floors of state-of-the-art dance studios, with the first floor fully ADA compliant. In keeping with the Town's sustainability goals and decarbonization efforts, the project will provide a more sustainable, energy efficient and carbon neutral model for the planned 5,000 square foot Dance Studio Building to further enhance the facilities' ability to reduce greenhouse emissions.	\$940,545	X	12/15/2022
NYSERDA CNED	Capital Region	121395	Rensselaer	Phinney Design Group	504 Broadway	The project converts an existing two-story, 1960s-era brick masonry office building in the historic downtown Troy Business district to a 4-story multi-use net zero energy building. Utilizing the existing building's footprint and masonry exterior walls, a new mass timber structure will be set inside the existing masonry walls to carry the loads of the third and fourth story addition and open up the upper levels. The first floor will consist of a lounge/restaurant with indoor and outdoor seating. The second-floor office level will include Class A office space with a reception lobby and a shared conference space for the building. The third and fourth levels will house the Troy Offices of Phinney Design Group. A mix of private offices, open office space, conference rooms, lounge and library areas over two floors including a green roof facing Broadway.	\$600,000		12/15/2022
NYSERDA CNED	Finger Lakes	118967	Monroe	City of Rochester	Maplewood Nature Center	The project includes the renovation of an existing City of Rochester facility into the Maplewood Nature Center. Proposed elements of the building renovation include, classroom space, demonstration kitchen, childcare space, and an entrance canopy addition. The building is in need of capital improvements including, roof replacement, HVAC upgrades, window replacements, building insulation, building envelope improvements, a geothermal heating/cooling system and a solar energy system are also included in the scope of the project. Proposed site work includes teaching gardens, rain gardens, a bio-swale, creation of walking paths, shade structures, lighting, patio, and a naturalized pond edge. Parking analysis and parking lot adjustments are also required and will include four to six electric vehicle (EV) charging stations. All of the proposed improvements will result in a net zero energy building.	\$342,000	X	12/15/2022
NYSERDA CNED	Finger Lakes	119927	Monroe	Rochester Institute of Technology	Planning for Decarbonization at Rochester Institute of Technology and Rochester Regional Health	Rochester Institute of Technology (RIT) and Rochester Regional Health (RRH) propose to develop a roadmap for decarbonization for a variety of building types on RIT's campus in Rochester and at several RRH facilities throughout the Finger Lakes region. The roadmap will include technical analysis and financial modeling.	\$2,000,000		12/15/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
NYSERDA CNED	Long Island	120828	Nassau, Suffolk	Catholic Health System of Long Island	SystemWide Energy Master Planning Project	Catholic Health Services will conduct an Energy Master Plan (EMP) which will identify a pipeline of capital projects to create jobs, support a more resilient environment and reduce the carbon footprint for one of the region's largest employers. The EMP will include developing a baseline analysis for each hospital (including: Electric & natural gas consumption, carbon emissions, hospital conditions, relevant equipment and system inventories), describe the Carbon Conservation Measures (CCM) to be implemented (in-line with New York State climate goals) to reduce carbon emissions by 2030 and 2050 respectively, identify the available incentives and grants for the CCM's described, recommendations for technologies that can be installed in planned, new, or buildings undergoing expansions, review renewable energy options that can be utilized, provide a method for Catholic Health to track and report the progress and successes of the system's carbon reduction goals, and make recommendations for architectural standards which are sustainable and aid in the overall carbon reduction plan.	\$405,684	X	12/15/2022
NYSERDA CNED	Mid-Hudson	117719	Dutchess	Scenic Hudson, Inc.	Scenic Hudson: Northside Hub Carbon Neutral Project	Scenic Hudson, through its affiliated Northside Junction LLC, has embarked on a major adaptive reuse project, transforming a derelict former manufacturing site in Poughkeepsie, NY into a vibrant community resource. Located at the former Standard Gage site on Poughkeepsie's north side, the site will house Scenic Hudson offices; spaces for local businesses, meetings and community events; as well as outdoor parkland and public space for community gatherings and educational activities. Environmental sustainability is central to this transformational project, which physically embodies Scenic Hudson's vision and legacy to unite people with each other and with nature. The project exemplifies adaptive reuse and mindful historic rehabilitation, combining a sophisticated three-step approach to achieve carbon neutral performance: high-performance envelope to minimize energy loads; hyper energy-efficient, all-electric air-source heat pumps; and energy production via photovoltaic systems.	\$2,000,000	X	12/15/2022
NYSERDA CNED	Mid-Hudson	118049	Ulster	City of Kingston	Municipal Buildings Energy Efficiency Upgrades	The City of Kingston, located 50 miles south of Albany on the Hudson River, will transform two of its most important historic buildings into a clean energy hub. Kingston City Hall and the Andy Murphy Neighborhood Center (AMNC) anchor midtown and will showcase solar systems, heat pumps, and a thermal energy network (TEN). The pre-war buildings need envelope upgrades and new heat systems. They will be converted to run entirely on electricity, bring more solar power and vehicle charging on-site, and add stormwater and thermal infrastructure for the community. Kingston is eager to adapt to the future envisioned by the Climate Act and become a leader in clean energy, building off the success of previously completed energy efficiency projects, including upgraded lights, installation of a solar system and window inserts, and reducing electricity and gas usage. City Hall's existing hydronic system will be upgraded and reused, and boilers will be replaced by heat pumps. Ground wells will be drilled to become midtown's energy reservoir. This is the start of Kingston's Thermal Energy Network (TEN), owned by the city, anchored by this project, and with potential to connect to the hospital, high school, and other buildings in the area.	\$1,815,000		12/15/2022
NYSERDA CNED	Mohawk Valley	120985	Otsego	River Architects	The Bank Loft	Situated in the heart of downtown Richfield Springs, the adaptive-reuse project will preserve, decarbonize, and revitalize a long-vacant 19th-century bank building for mixed-use/multifamily redevelopment. Reimagined as "The Bank Loft," the landmark will provide urgently needed market-rate rental apartments and amenities within a beautifully restored carbon neutral building redesigned to attract a new generation of residents—and new investment—to a once-affluent Otsego County resort town that has endured decades of population loss and economic decline. Ground-level retail spaces will serve the multigenerational community, offering access to local farm products and bulk goods, as well as an inviting cafe with public Wi-Fi. The plan also transforms an adjoining empty lot into off-street parking for residents, with charging stations and a solar array. Led by an interdisciplinary team of experts, the project will meet rigorous Phius+ 2021 Core standards. When complete, the Bank Loft will serve as a replicable model for the decarbonization of historic buildings across the community and state—multiplying its environmental and economic impact.	\$972,806	X	12/15/2022
OPRHP EPF HAS D	Capital Region	119959	Albany	City of Cohoes	Cohoes Music Hall Restoration Project	The City of Cohoes will address critical preservation needs of the 1874 Cohoes Music Hall and Visitors Center building, located at 58 Remsen Street, which is a local and regional economic driver in the RiverSpark Heritage Area. The project will include vital structural, roofing, facade, and window restoration work.	\$500,000	X	12/16/2022
OPRHP EPF HAS D	Mid-Hudson	119827	Ulster	Reher Center for Immigrant Culture and History	Historic Reher Center Rehabilitation Project	The Reher Center for Immigrant Culture and History will use funding for roof, masonry, and drainage work. Situated in Kingston's Rondout Historic District, the building is the former home of the Reher Bakery, a community fixture for nearly 100 years. When complete, the Center will have a safe and stable structure and will be better positioned to offer high-quality programming for school children and life-long learners.	\$469,413		12/16/2022
OPRHP EPF HAS D	Southern Tier	118969	Broome	Binghamton City School District	Binghamton High School Main Street Entrance Restoration	The Binghamton City School District will restore the Main Street entrance to Binghamton High School, built in 1916 and a contributing resource to the Main Street Historic District. The restored Main Street entrance will provide more direct access to the Helen Foley Theater by restoring steps from the sidewalk to the entrance, restore other components of the original entrance, and clean and re-point the masonry.	\$500,000	X	12/16/2022
OPRHP EPF HAS D	Western New York	118950	Chautauqua	Town of Sheridan	Sheridan Bay Park Campground Improvements	The Town of Sheridan will upgrade the Sheridan Bay Campground located on Lake Erie. The visitor experience will be improved by constructing a new accessible bathhouse, upgrading campsite electrical hook-ups, and replacing the pavilion and check-in office. In addition to upgrades, the town will be preserving lakefront green space while ensuring the continued use of needed campsites.	\$421,725		12/16/2022
OPRHP EPF HP D	Capital Region	118459	Albany	City of Albany	City Hall Roof Restoration - Phase 1	The City of Albany will complete Phase I Roof Restoration and Rehabilitation of the historic City Hall building. The goal is to restore the building to the 1880's period and to prevent further deterioration while preserving its historic significance into the next century.	\$750,000		12/16/2022
OPRHP EPF HP D	Central New York	119150	Onondaga	Greater Syracuse Property Development Corporation	Gustav Stickley House Restoration - Phase 2	The Greater Syracuse Land Bank continues the restoration of the Gustav Stickley House in Syracuse. Building upon the Phase 1 exterior restoration, Phase 2 will restore the historic first floor, construct a second stairwell and ensure accessibility by adding an elevator and restroom. Completion of Phase 2 will maintain and preserve the integrity of the historic elements, and allow public access to the building's most significant interior spaces, creating a unique educational and tourism destination.	\$750,000	X	12/16/2022
OPRHP EPF HP D	Central New York	118002	Oswego	H. Lee White Maritime Museum at Oswego	National Historic Landmark LT-5 Preservation	The H. Lee White Maritime Museum at Oswego, on behalf of the Port of Oswego Authority, will preserve and restore the National Historic Landmark WWII Tugboat and D-Day veteran LT-5, Major Elisha K. Henson. In doing so, the Maritime Museum will enhance onboard educational opportunities and bolster regional heritage-based tourism in Central New York.	\$500,000	X	12/16/2022
OPRHP EPF HP D	Finger Lakes	119865	Monroe	George Eastman Museum	Chimney and Parapets Restoration	The George Eastman Museum will address urgent repairs to the chimneys and parapets of the historic mansion. Restoration will assure visitor safety and long-term preservation of these structures for the enjoyment of future generations.	\$500,000	X	12/16/2022
OPRHP EPF HP D	Finger Lakes	120031	Wayne	Friends of the Schooner Lotus, Inc.	Schooner Lotus Restoration	The Friends of the Schooner Lotus will implement the restoration of the historic Schooner Lotus, a 60-foot wooden, two-masted, gaff-rigged sailboat, built in 1918 and sailed on Sodus Bay since 1972. Upon completed restoration, the public will be able to visit the historically rigged and outfitted schooner vessel from a public dock, and experience immersive history sailing cruises while learning about traditional sailing techniques, the region's ecology, and history.	\$266,687		12/16/2022
OPRHP EPF HP D	Long Island	118099	Nassau	Old Westbury Gardens, Inc.	Restoration of the Boxwood Garden Reflecting Pool and Colonnade	Old Westbury Gardens will restore signature hardscape elements in the Boxwood Garden. These include the reflecting pool and colonnade which will both be stabilized and will reduce water consumption.	\$200,000		12/16/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
OPRHP EPF HP D	Long Island	120876	Nassau	Planting Fields Foundation	Transforming the Visitor Experience at Planting Fields	Planting Fields Foundation will work towards a major transformation of the visitor experience at Planting Fields Arboretum State Historic Park in Oyster Bay with the addition of ADA accessible visitor pathways, sitewide signage in multiple languages, and restoration of the original landscape design intent of the main entrance by the Olmsted Brothers firm adopting sustainable measures and native species to promote biodiversity.	\$500,000	X	12/16/2022
OPRHP EPF HP D	Long Island	119944	Suffolk	Village of Southampton	Rogers Mansion Restoration	The Village of Southampton will restore the Rogers Mansion, a living relic of life in Southampton from the mid-1700s to the early 20th century. Listed on the National Register of Historic Places since 2012, the exterior envelope of the building is succumbing to age and the elements, and is urgently in need of restoration so that it can continue to be included in the Museum's interpretive programs and serve as an anchor in the downtown village Arts District.	\$500,000		12/16/2022
OPRHP EPF HP D	Long Island	120814	Suffolk	Sylvester Manor Educational Farm, Inc.	Sylvester Manor House Rehabilitation	Sylvester Manor Educational Farm will complete a major rehabilitation of the exterior building envelope of the circa 1737 Sylvester Manor House, preventing further deterioration, making the Manor House accessible to all, and achieving crucial progress toward the goal of complete rehabilitation of the historic structure. Sylvester Manor House is a primary contributing resource of a Historic District of National Significance listed on the National and State Registers of Historic Places.	\$500,000		12/16/2022
OPRHP EPF HP D	Mid-Hudson	118768	Dutchess	Hudson Highlands Fjord Trail, Inc.	Dutchess Manor Restoration - Phase 1	Hudson Highlands Fjord Trail, Inc. will complete Phase 1 Restoration of the former Dutchess Manor in Fishkill. The goal is to replace the deteriorating asphalt and bitumen on the mansard roof with historically accurate slate tiles, repair and paint the exterior woodwork including replacing in-kind damaged or rotten sections, replace flashing, and replace the failing gutter system with historically accurate built-in gutters.	\$457,999	X	12/16/2022
OPRHP EPF HP D	Mid-Hudson	117606	Putnam	Town of Southeast Cultural Arts Coalition	Southeast Old Town Hall Preservation - Building Envelope/Stair	The Town of Southeast Cultural Arts Coalition will stabilize and restore the historic 1896 Southeast Old Town Hall building envelope and replace the crumbling entry steps with a grand entry stair that reflects the civic aesthetic of the original architectural designs. Located on Main Street in Brewster, this historic treasure with its wonderful upper floor theater will become a cultural and performing arts center and serve as a linchpin in the revitalization of downtown Brewster.	\$500,000		12/16/2022
OPRHP EPF HP D	Mid-Hudson	120110	Westchester	Town of Greenburgh	Odell House Rochambeau Headquarters Restoration Project - Phase 2	The Town of Greenburgh will undertake the rehabilitation of Odell House Rochambeau Headquarters, a site with significant Revolutionary War relevance. The project will build upon initial restoration work and lead to full restoration for the purposes of making the building publicly accessible for visitors as part of educational tours.	\$500,000		12/16/2022
OPRHP EPF HP D	Mid-Hudson	120445	Westchester	National Trust for Historic Preservation	Lyndhurst Property Northside Restoration	The National Trust for Historic Preservation will restore the north side of the Lyndhurst estate to protect its historic assets and better serve visitors arriving on the property from the Governor Mario M. Cuomo Bridge Path and the Old Croton Aqueduct. The project will refurbish or restore several historic features of the Lyndhurst estate including its greenhouse frame, swimming pool building and rose/perennial garden.	\$500,000		12/16/2022
OPRHP EPF HP D	Mohawk Valley	119524	Montgomery	Montgomery County Historical Society	Old Fort Johnson Roof Restoration	The Montgomery County Historical Society will complete the restoration of the roof and associated systems of Old Fort Johnson in Fort Johnson. The goal is to restore the 1749 house to its 18th-century appearance and to prevent further deterioration. Work will include new historically accurate wooden shingles, flashings, gutters and downspouts, and repairs to the building's dormer windows.	\$286,389		12/16/2022
OPRHP EPF HP D	New York City	120465	New York	Westbeth Corporation Housing Development Fund Company, Inc.	Westbeth C-South Facade Restoration Project	Westbeth Corporation Housing Development Fund Company, Inc. will complete the C-South section of its Historic Facade Restoration Project on its landmark West Village campus. Restoration of the rapidly deteriorating facade will preserve the historic character of the property while also addressing a host of safety, legal, environmental, and quality of life issues for artist residents of Westbeth's affordable housing units, as well as the general public.	\$500,000	X	12/16/2022
OPRHP EPF HP D	New York City	120665	New York	First Ukrainian Assembly of God, Inc.	First Ukrainian Assembly of God Comprehensive Historic Rehabilitation	First Ukrainian Assembly of God, Inc. will undertake comprehensive restoration of the historic building envelope at 9 East 7th Street (59 Cooper Square), the Cornerstone, First Ukrainian Assembly of God. Built in 1867 as the Metropolitan Savings Bank and lauded as the first fully fireproof building in Manhattan, the building was designed by noted New York City architect Carl Pfeiffer. The planned rehabilitation work will ensure the long-term protection of this significant structure.	\$487,460		12/16/2022
OPRHP EPF HP P	New York City	121300	New York	Friends of the Ruin	Smallpox Hospital Planning	In conjunction with New York State, Friends of the Ruin will complete plans for the Smallpox Hospital site on the southern end of Roosevelt Island, New York City. The site is the proud recipient of two prior Consolidated Funding Application planning grants in historic preservation. This final planning grant will complete all related design-work for the New York State landmark prior to its stabilization and re-adaptation.	\$333,800		12/16/2022
OPRHP EPF HP D	North Country	119890	Essex	The Fort Ticonderoga Association	Restoring Fort Ticonderoga's North Demi-Lune	The Fort Ticonderoga Association will repair and restore the north demi-lune, a central feature of this National Historic Landmark, to prevent the loss of very significant and irreplaceable historic building fabric.	\$390,457	X	12/16/2022
OPRHP EPF HP D	North Country	120308	Franklin	Eagle Island, Inc.	Rehabilitation of Eagle Island Great Camp - Phase III	Eagle Island, Inc. will complete Phase III Rehabilitation of Eagle Island, a Great Camp on Upper Saranac Lake, preventing further deterioration of the National Historic Landmark buildings and structures, and supporting current and future use. The Great Camp buildings and surrounding island property will continue to serve as a summer youth camp, family camp, historic tour destination, environmental education center, and community asset.	\$499,994	X	12/16/2022
OPRHP EPF HP D	Southern Tier	120065	Broome	Roberson Museum and Science Center	Mansion Masonry and Ironwork	The Roberson Museum and Science Center will address deterioration and damage to stone and brick masonry on the 1906 Roberson Mansion and Carriage House, as well as repair its original wrought-iron fence, in order to restore the Mansion's original curb appeal and prevent further deterioration.	\$437,025		12/16/2022
OPRHP EPF HP D	Western New York	120982	Erie	Richardson Architecture Center, Inc.	Stabilization of Building 12 Richardson Olmsted Campus for Lipsey Architecture Center of Buffalo	Richardson Architecture Center, Inc. will begin stabilization efforts of Building 12 of the Richardson Olmsted Campus including asbestos abatement, a new roof system, and building envelope stabilization. The Lipsey Architecture Center of Buffalo will ultimately use this space as an architectural gallery and visitor's center at the historic campus.	\$500,000	X	12/16/2022
OPRHP EPF HP D	Western New York	117675	Niagara	First Presbyterian Church, Niagara Falls	Bell Tower Restoration	First Presbyterian Church, Niagara Falls, will restore its historic bell tower masonry, including three rooftop turrets, to its original Gothic Revival and Italianate design. The bell tower internals will also be restored and modernized so that the belfry can be easily accessed and the original 1848 bell can once again ring.	\$426,464		12/16/2022
OPRHP EPF PKS D	Capital Region	118535	Columbia	City of Hudson	Oakdale Park Improvements Project	The City of Hudson will improve a public recreational play area of Oakdale Park. Upgrades will include a series of soft-surfaced play and exercise islands throughout the playground, a structure including gender-neutral bathrooms, a small storage area, a covered picnic area, chess tables and a new parking area.	\$441,011		12/16/2022
OPRHP EPF PKS D	Capital Region	119879	Warren	Town of Lake George	McPhillips Preserve at French Mountain Park Project	The McPhillips Preserve at French Mountain Park project will create a hiking and biking trail system that connects key community centers and other existing multi-use pedestrian and bicycle routes, advances economic development in the area, grows employment opportunities, and preserves the natural landscape in a historically rich area. The project is a collaborative effort among the Towns of Lake George and Queensbury, and the Lake George Land Conservancy.	\$200,000		12/16/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
OPRHP EPF PKS D	Central New York	119309	Madison	Village of Cazenovia	Historic Pier Rehabilitation and Beach Enhancement at Lakeland Park	The Village of Cazenovia will implement improvements to Lakeland Park including rehabilitation of the iconic historic stone masonry pier including several areas where the stone wall is failing; improved parking and vehicular patterns including traffic calming measures to reduce vehicular-pedestrian conflicts; creation of a waterfront plaza between the beach area and parking lot to create a buffer and a safer environment for beach goers; and expansion of the beach area to increase capacity.	\$500,000	X	12/16/2022
OPRHP EPF PKS D	Finger Lakes	121699	Monroe	Village of Pittsford	Canalway Improvements	The Village of Pittsford will pursue improvements along the Erie Canal Trail adjoining Schoen Place. Enhancements will include stabilization and adjacent roadway improvements to further support the local businesses, tourists, and recreational users along the Canalway.	\$300,000		12/16/2022
OPRHP EPF PKS D	Finger Lakes	118534	Ontario	Sonnenberg Gardens, Inc.	Restrooms without Discrimination	Sonnenberg Gardens, Inc. will undertake construction of unisex ADA compliant restrooms and exterior access modifications.	\$490,000		12/16/2022
OPRHP EPF PKS D	Finger Lakes	117974	Wayne	Village of Clyde	Canal Access Improvements	The Village of Clyde will replace deteriorated docks with a new ADA 250' floating dock to improve water access and safety. A new waterfront plaza adjacent to the dock will add to the visitor experience.	\$500,000	X	12/16/2022
OPRHP EPF PKS D	Long Island	119639	Nassau	Incorporated Village of Rockville Centre	Inclusive Playground Complex at Veterans Park	The Village of Rockville Centre will build and sustain an inclusive playground complex at the Rockville Centre Recreation Center property located at 111 North Oceanside Road. The improvements include a boundless playground, ADA compliant restrooms and water fountains, a fitness track, and renovated tennis, basketball and handball courts.	\$500,000		12/16/2022
OPRHP EPF PKS D	Long Island	120216	Nassau	City of Long Beach	Pacific Park Playground Improvement Project	The City of Long Beach will improve Pacific Park Playground on Shore Road, located in a low-to-moderate income area where most residents live in high-rise apartment buildings and have limited access to outdoor recreational space. The playground equipment is severely rusted and falling apart due to the salt air and extreme weather from the ocean. The improvements will increase existing use of the park, improve public health and safety, and contribute to local revenue generation.	\$335,350	X	12/16/2022
OPRHP EPF PKS D	Mid-Hudson	118715	Dutchess	Village of Millerton	Eddie Collins Memorial Park Revitalization - Phase 2	The Village of Millerton will continue the planned revitalization of Eddie Collins Memorial Park by implementing the second phase of the project. Phase 2 improvements will focus on a new Pool House with ADA-compliant bathrooms, changing rooms, showers, offices, a recreation room, and a concession area with a small kitchen. Infrastructure supporting the Pool House, including a septic system, lighting, and landscaping, will also be completed during this phase.	\$500,000		12/16/2022
OPRHP EPF PKS D	Mid-Hudson	118759	Dutchess	Town of Pawling	Lakeside Park Waterfront Improvements Project	The Town of Pawling will enhance the Lakeside Park waterfront area through physical and aesthetic improvements to beach health, safety, and facility access. The improvements will include demolition of the former inn, reconstruction of the restrooms, showers, locker rooms, and storage areas, construction of a new rooftop pavilion, and a new kitchen, additional restrooms, and the implementation of a nanobubble water aeration system.	\$500,000		12/16/2022
OPRHP EPF PKS D	Mid-Hudson	119399	Orange	Open Space Institute	Schunnefunk Meadows Trail	Open Space Institute will design, engineer and construct Phase 1 of the overall loop trail across the spectacular Schunnefunk Meadows fields along the Moodna Creek, expanding access to the most recent additions to Schunnefunk State Park and create a wholly new, four-season outdoor recreational experience in the western Hudson Highlands region.	\$500,000	X	12/16/2022
OPRHP EPF PKS D	Mid-Hudson	119089	Westchester	City of New Rochelle	Hudson Park Revitalization - Phase 1	The City of New Rochelle will begin the transformation of Hudson Park, an underutilized waterfront park located at the south end of the City, by rehabilitating the waterfront promenade and boardwalk as well as the sundeck and pier.	\$500,000		12/16/2022
OPRHP EPF PKS D	Mohawk Valley	107294	Oneida	Town of Kirkland	Edward W. Stanley Recreation Center Improvement Project	The Town of Kirkland will remove the existing floor and piping system in the Edward W. Stanley Recreation Center ice rink ("Clinton Arena"). The current refrigerated piping system is leaking brine and cannot be permanently repaired. This project will also include installing new dasher boards at the perimeter of the rink. The 2,200-seat arena is a nationally registered historic property and is home to several hockey leagues and one of the largest figure skating clubs on the East Coast.	\$500,000	X	12/16/2022
OPRHP EPF PKS D	Mohawk Valley	119204	Oneida	City of Rome	Empire State Erie Canal Trail Priority Towpath Improvements	The City of Rome will rehabilitate the existing off-road section of the NYS Empire State Trail/Erie Canalway Trail (EST/ECT) located between the Erie Canal Village Museum and South Charles Street in the City of Rome. The project will design and construct a 10-foot-wide stone dust off-road ADA compliant multi-use trail. The trail provides residents and tourists with a critical link between historic sites and attractions and the established business district in the City.	\$384,300	X	12/16/2022
OPRHP EPF PKS D	Mohawk Valley	119760	Oneida	Village of Boonville	Erwin Park Renewal	The Village of Boonville Erwin Park Renewal project will revamp the main entrance on NYS Route 12, construct a boardwalk and canoe/kayak launch, create an entrance to the Boonville Black River Feeder Canal, construct an amphitheater with seating built into the surrounding hill, and resurface the tennis court.	\$328,125	X	12/16/2022
OPRHP EPF PKS D	Mohawk Valley	119983	Schoharie	Village of Cobleskill	Iorio Park All Community Play and Accessibility Project	The Village of Cobleskill will replace the current 30-year old playground with a new barrier-free play structure including creative and sensory activity areas at our primary public park and recreation complex. The Village will also construct basketball and volleyball courts and a concrete skate park in the vacant front part of Iorio Park to create a play campus that can be enjoyed by families, teens, and kids of various physical abilities.	\$400,000	X	12/16/2022
OPRHP EPF PKS D	New York City	119852	Bronx	New York Restoration Project	Capital Improvements at Bronx and Brooklyn Community Gardens	The New York Restoration Project (NYRP) is planning critical capital improvements at community gardens distributed across the Bronx and Brooklyn. These spaces include five NYRP gardens (Clinton Avenue Community Garden, Target Bronx Community Garden, Willis Avenue Community Garden, Cooper Street Community Garden, and Eastchester Road Community Garden) and the Bronx Land Trust's Perry's Garden. These improvements will increase urban agriculture and food production in disadvantaged communities.	\$480,000	X	12/16/2022
OPRHP EPF PKS D	North Country	119400	Essex	Open Space Institute	Lake Placid Trailhead - Adirondack Rail Trail	Open Space Institute will design and construct the new Lake Placid Trailhead and parking area along the highly anticipated Adirondack Rail Trail (ART), a new multi-use trail that will connect North Country communities from Lake Tupper to Lake Placid and provide unparalleled access to the Adirondack wilderness. Located at the eastern terminus of the ART, Lake Placid Trailhead will provide a gateway and critical access to a new, year-round major tourist destination within Adirondack Park.	\$500,000	X	12/16/2022
OPRHP EPF PKS D	North Country	120848	Jefferson	Village of Adams	Village of Adams Community Park	The Village of Adams will rehabilitate Community Park with recreational features inclusive to all ages and mobility levels, functioning to serve the community for events, exercise, play, and leisure.	\$322,005		12/16/2022
OPRHP EPF PKS D	Southern Tier	118772	Broome	City of Binghamton	Ross Park Trail	The City of Binghamton will continue its effort to restore and improve the trails in its historic Ross Park by repairing stairways and sidewalks to be compliant with ADA standards, implementing pedestrian safety measures, and making improvements to the Morgan Road entrance. The project will provide access to historic resources in Ross Park and allow visitors to celebrate Ross Park's historic and natural resources.	\$500,000	X	12/16/2022

Agency / Program	Region	CFA #	County	Applicant	Project Title	Description	Award	REDC Priority Project	Date Announced
OPRHP EPF PKS D	Southern Tier	121628	Steuben	City of Hornell	Union Square - Four Season Park	The City of Hornell will repurpose a vacant, underutilized site, transforming it into a public green space, Union Square - Four Season Park, within the urban core of downtown Hornell on Seneca Street. Planned enhancements include: a raised stage with cover to create designated performance space, fountain with surrounding porous pavement, versatile programming areas for special events and themed activities, pedestrian walkways, bike racks, and other amenities.	\$376,125	X	12/16/2022
OPRHP EPF PKS D	Southern Tier	119798	Tompkins	Town of Ithaca	Babcock Ridge Trail at Culver Road Preserve	The Town of Ithaca will develop designs and construct parking facilities, trails and other passive recreation features in the Babcock Ridge portion of the Culver Road Preserve.	\$211,275	X	12/16/2022
OPRHP EPF PKS D	Western New York	120467	Chautauqua	Village of Celoron	Lucille Ball Memorial Park Playground Improvements	The Village of Celoron will remove the existing unsafe playground and replace with a new, state-of-the-art accessible playground with inclusive equipment at the historic Lucille Ball Memorial Park on Chautauqua Lake. In addition to the playground, the Village will further improve the newly revitalized park with site work and plantings, including new trees and benches.	\$165,000		12/16/2022
OPRHP EPF PKS D	Western New York	118149	Erie	City of Buffalo	Roosevelt Park Enhancements	The City of Buffalo will revitalize Roosevelt Park in the Kenwood neighborhood. The site will be further developed to include a modern playground, fitness equipment, a running track, and walking path. The existing athletic courts will be replaced, the grass field will be refurbished, and several amenities will be installed with landscaping improvements.	\$750,000		12/16/2022
OPRHP EPF PKS D	Western New York	118682	Erie	Village of Depew	Fireman's Park Inclusive Recreation Project	The Village of Depew will complete Phase 2 of inclusive, sustainable improvements at the community's largest recreation area, Fireman's Park. Improvements will include an inclusive playground with safety surfacing, installation of a multi-use activity trail linking park amenities, a new shade shelter, LED lighting, and improvements to the tennis and basketball courts.	\$351,528		12/16/2022
OPRHP EPF PKS D	Western New York	120078	Erie	Town of North Collins	Fricano Park Playground	The Town of North Collins will remove and replace the current 30-year old playground at the Marion J. Fricano Park. The new playground will provide the immediate and surrounding communities an opportunity to play in a vibrant, safe, ADA-compliant environment.	\$117,500		12/16/2022
OPRHP EPF PKS P	Capital Region	117915	Columbia	Harlem Valley Rail Trail Association, Inc.	Harlem Valley Rail Trail / Village of Chatham to the Village of Philmont Planning Project	The Harlem Valley Rail Trail Association will complete the planning, surveying, bridge engineering, design, wetland studies, permitting and construction documents for a section of abandoned railbed to become the northern terminus of the Harlem Valley Rail Trail. This section will run from the Village of Chatham to the Village of Philmont.	\$375,000		12/16/2022
OPRHP EPF PKS P	Long Island	120929	Suffolk	Southampton Town Aquatics and Recreation Corporation	STAR AquaCenter	The Southampton Town Aquatics and Recreation Center (STAR) will be a great facility providing an indoor pool. At 146 McGee Street, this facility will have one 8-lane 25 yard competition pool and a second warm water pool with space for water aerobics and swim lessons for children. Included in this environmentally sustainable building will be a fitness center and community meeting rooms.	\$500,000		12/16/2022
OPRHP EPF PKS P	North Country	121179	Essex	Adirondack Mountain Club, Inc.	Planning and Renovation of Cascade Cross Country Ski Center	The Adirondack Mountain Club will develop planning documents to make this 200-acre property available to the public for skiing and other outdoor activities, as well as increase capacity by adding a fully accessible, year-round world-class outdoor education and visitor information center.	\$101,925	X	12/16/2022
OPRHP EPF PKS P	Western New York	118147	Erie	Western New York Land Conservancy	The Riverline	The Western New York Land Conservancy, Inc. will create preliminary and detailed design of an initial segment of their overall project to transform the unused 1.5 miles, 40-acre DL&W rail corridor into an iconic, innovative, and inspiring multi-use nature trail and greenway.	\$500,000	X	12/16/2022
