

New York State Green Jobs Survey Finding #1: Prevalence

Statewide, by Industry Cluster, for 2010 4th Qtr

Firms Statewide	Component Manufacturing	Professional Services	Building Services	Construction Trades
Number with Green Employees	260	2,840	4,110	7,370
Total Number in Cluster	1,660	10,300	25,540	26,980
Percent with Green Employees	16%	28%	16%	27%

In these four clusters alone, there are over 14,500 firms that have one or more employees primarily engaged in producing goods or delivering services that increase energy efficiency or generate renewable energy.

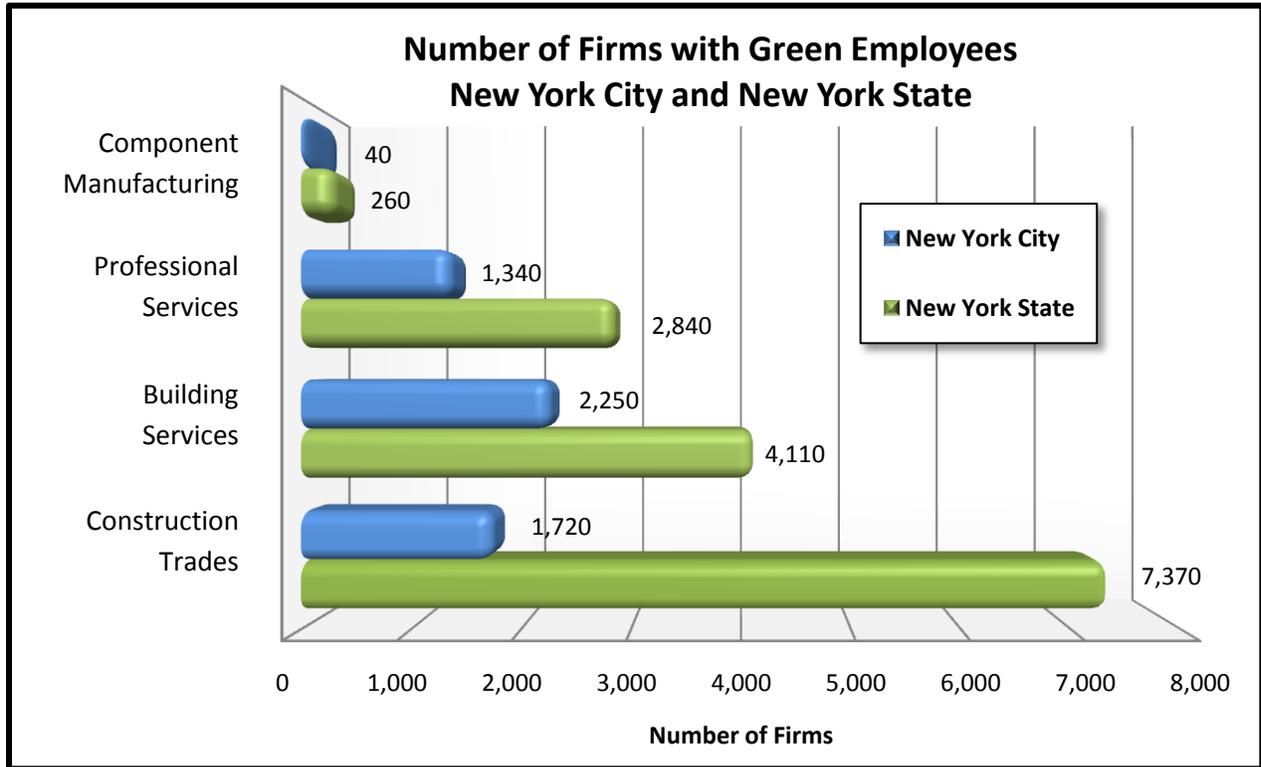

The smallest industry cluster listed above – Component Manufacturing – also has the fewest firms with green employment whereas the largest – Construction Trades – has the most. In the same vein, Building Services is the second largest cluster and has the second highest number of firms with green employment, while Professional Services¹ ranks third on both measures.

A different picture emerges when clusters are ranked by share of firms with green jobs. Professional Services tops the list with 28% of its firms having green employment. Construction Trades is a close second with 27%, and Building Services and Component Manufacturing are tied at 16%.

¹ The Professional Services industry cluster excludes legal services.

New York State Green Jobs Survey Finding #1: Prevalence

New York City, by Industry Cluster, for 2010 4th Qtr

Green Firms	Component Manufacturing	Professional Services	Building Services	Construction Trades
In New York City	40	1,340	2,250	1,720
In New York State	260	2,840	4,110	7,370
Share² in New York City	17%	47%	55%	23%

Although over 40% of New York State’s businesses are in New York City, this proportion does not hold true across every industry. For example, New York City has 40% of the State’s Professional Services companies, but only 30% of the State’s Construction Trades firms. Building Services has the largest share of firms located in New York City (63%) and Component Manufacturing has the smallest (17%).

In New York City, over 5,000 green firms account for approximately:

- 17% of all green Component Manufacturing firms in New York State
- 47% of all green Professional Services firms in New York State
- 55% of all green Building Services firms in New York State
- 23% of all green Construction Trades firms in New York State

² Percentages are calculated from unrounded data.
